

September 27, 2002

MEMORANDUM FOR: M. Wayne Hodges, Deputy Director
Technical Review Directorate
Spent Fuel Project Office, NMSS

FROM: Jack Guttman, Chief /RA/
Technical Review Section B
Spent Fuel Project Office, NMSS

SUBJECT: SUMMARY OF SEPTEMBER 19, 2002, MEETING WITH
HOLTEC INTERNATIONAL

On September 19, 2002, representatives from HOLTEC International (HOLTEC) met with representatives from the U.S. Nuclear Regulatory Commission's (NRC) Spent Fuel Project Office to deliver an analytic structural model of the HI-STAR multi-purpose transportation cask, with impact limiters and a rail car. This structural model was provided by HOLTEC to aid the staff in its vulnerability assessments of spent fuel transportation casks to terrorist events. The meeting did not related to any licensing activity related to HOLTEC or other parties. No classified information was discussed at this meeting. Attachment 1 is a listing of meeting attendees, and Attachment 2 contains HOLTEC's presentation slides.
