Dr. John M. Ferriter, Director
Operations, Remediation and Restoration
U.S. Army Soldier and Biological Chemical Command
AMSSB-RCB-RS
5183 Black Hawk Road
Aberdeen Proving Ground, MD 21010-5423

SUBJECT: STATUS OF JEFFERSON PROVING GROUND DECOMMISSIONING

Dear Dr. Ferriter:

We have received your revised Decommissioning Plan (DP) and Environmental Report (ER) for Jefferson Proving Ground (JPG) and have conducted acceptance reviews. The NRC staff noted that you have included off-site transport models for depleted uranium (DU) in the revised DP. The off-site transport models are in response to the deficiencies stated in our letter to you dated September 27, 2001, resulting from the acceptance review of the DP submitted June 27, 2001. Based on the inclusion of the off-site transport models, and the response to the other deficiencies noted in the September 27, 2001 letter, we accept the DP and ER for technical review.

If you have any questions, please contact Tom McLaughlin, of my staff, at (301) 415-5869.

Sincerely,

/RA/

Larry Camper, Chief
Decommissioning Branch
Division of Waste Management
Office of Nuclear Material Safety
and Safeguards

Docket No.: 040-08838
License No.: SUB-1435
