Subject: CZMA Consistency List - Reply to 8/20/02 Letter

Margaret -

This is the Nuclear Regulatory Commission (NRC) staff reply to Charles H. Evans' letter dated August 20, 2002, addressed to Mr. James Lieberman of the NRC Office of General Counsel.

Mr. Evans' letter requests consultation regarding a proposed update to the Connecticut Department of Environmental Protection list of Federal activities, permits and licenses which may require Federal coastal consistency review under the provisions of regulations which implement the Coastal Zone Management Act.

The NRC staff has reviewed the proposed update and has no comment.

If there are any questions regarding this reply, please contact me at dxw@nrc.gov or (301) 415-1444.

Thank you for providing the NRC staff an opportunity to comment on your proposed action.
