Kewaunee, WI 54216

SUBJECT: KEWAUNEE NUCLEAR POWER PLANT - REVIEW OF SUBMITTAL  
SUPPORTING FUTURE STRETCH POWER UPRATE (TAC NO. MB6408)

Dear Mr. Coutu:

Nuclear Management Company, LLC (NMC) has submitted a license amendment request to support a future stretch power uprate at Kewaunee Nuclear Power Plant. The submittal is a request for use of GOTHIC 7 in Containment Design-Basis Accident Analyses. The U. S. Nuclear Regulatory Commission (NRC) staff received the GOTHIC 7 submittal on September 30, 2002, and NMC requested a completion date by March 3, 2003. This is a request to complete the GOTHIC 7 review in 5 months and 4 days.

The NRC performance goals for licensing actions is to complete 95 percent in less than one year and 100 percent in less than two years. The NRC staff finds your proposed target date for completion of our review to be aggressive, but the NRC staff will endeavor to complete its review consistent with the proposed schedule.

The NRC faces significant challenges to balance its work load, available resources, and budget constraints and achieve its performance goals. Accordingly, it is important that you plan your submittals to enable the NRC staff to perform its review in an efficient manner consistent with our performance goals and your schedule.

Sincerely,

*/RA/*

John G. Lamb, Project Manager, Section 1  
Project Directorate III  
Division of Licensing Project Management  
Office of Nuclear Reactor Regulation
