Subject: DPV on 10 CFR 50.70 Violation

After considering the panel recommendations several weeks and followup action taken by OI, I accept the panel recommendations. Although somewhat different than I proposed, I am in general agreement with the recommendations.

The issue was taken back to ARB and OI has initiated a review of the matter. This will resolve the specific concern at the site. Followup action to provide amplifying information to Region II staff on what constitutes a willful violation hopefully will address the generic aspects for the future.

Thank you for the review of this matter. Other than to assist OI in their review, I plan no further action and consider my concerns closed.

CC: Charles R. Ogle; Leonard Wert
