Matt,

Thanks for notifying our office regarding the intent to prepare an EIS for the Idaho Spent Fuel Facility. Myself, and other staff from the State of Idaho INEEL Oversight Program have reviewed the fact sheet and information provided. At this point in time, we have no concerns regarding the format and process for completing the EIS.

We will plan on reviewing the draft EIS when it is released next spring and attending any of the associated public meeting. Thanks again for providing us the information.

Sincerely,

Doug Walker
NRC Liaison
State of Idaho, INEEL Oversight Program
