

September 25, 2002  
2130-02-20269U.S. Nuclear Regulatory Commission  
Attn: Document Control Desk  
Washington, DC 20555-0001

Subject: Request for Exemption from 10CFR2.109(b) and 10CFR50.75(f)(2)

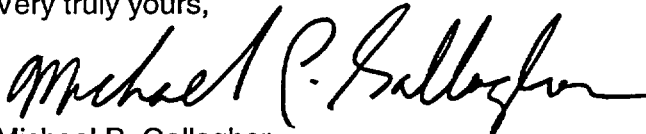

Oyster Creek Generating Station (Oyster Creek)  
Facility Operating License No. DPR-16  
NRC Docket No. 50-219

- References:
1. April 30, 2002 Letter from Jeffrey A. Benjamin (Exelon), to NRC Document Control Desk Regarding Request for Exemption
  2. June 21, 2002 Letter from Jeffrey A. Benjamin (Exelon), to NRC Document Control Desk Regarding Request for Exemption

In the Reference 1 and 2 letters, Exelon Generation Company, LLC (Exelon) submitted information requesting exemptions from the requirements of 10CFR2.109(b) and 10CFR50.75(f)(2) for the Oyster Creek Generating Station. In consideration of the current business environment, Exelon has decided to withdraw the subject requests at this time. Should Exelon/AmerGen decide to pursue these or other similar licensing actions related to the Oyster Creek Generating Station, a new submittal to the NRC would be made, with the appropriate supporting information.

If you have any questions concerning this withdrawal, please contact John Hufnagel of my staff at (610) 765-5507.

Very truly yours,

Michael P. Gallagher  
Director, Licensing & Regulatory Affairs
