SUBJECT: REQUEST FOR OPPORTUNITY TO COMMENT ON LOUISIANA ENERGY SERVICES POLICY ISSUES

Dear Mr. Marriotte:

In your letter of September 11, 2002, you requested an opportunity to comment on the policy issues presented to us by Louisiana Energy Services (LES) in a meeting held on April 30, 2002. On October 2, 2002, we published in the Federal Register a formal, 30-day opportunity to comment on the policy issues, principally to allow Hartsville area residents an opportunity to provide input. While you requested a 90-day comment period, we consider that 30-day comment is sufficient since the information from LES has been available to the public since the April 30, 2002, meeting.

In your letter you indicated that the U.S. Nuclear Regulatory Commission (NRC) should have known of your interest in this case and contacted you. Unfortunately, it is not possible to anticipate or know of everyone's interest in specific licensing actions. However, as you requested, we will add you to the distribution list for NRC-generated documents for both Docket Nos. 70-3103 and 70-7003. Other documents are available in the Agencywide Documents Access and Management System (ADAMS).

Sincerely,

/RA/

Timothy C. Johnson
