Subject: Comments on Draft Regulatory Guide DG-3022,
"Topical Guidelines for the Licensing Support Network"

By notice in Volume 67 of the Federal Register, page 44478 (i.e., 67 FR 44478), dated July 2, 2002, the NRC requested comments on draft guide (DG) - 3022, "Topical Guidelines for the Licensing Support Network," by September 30, 2002. Once finalized, this document will provide the only guidance on a critical element in the public process of determining whether the Yucca Mountain repository for used nuclear fuel can be licensed. Therefore, it is essential that this guidance be as clear and unambiguous as possible in establishing the scope and content of the Licensing Support Network (LSN). Exelon Generation Company (EGC), LLC is pleased to submit comments on this important document.

EGC has provided its comments to the Nuclear Energy Institute (NEI). Accordingly, we strongly endorse the comments submittal by the NEI letter from Steven P. Kraft dated September 26, 2002.

If you have any questions or need additional information, please contact me at 630-657-2813.

Respectfully,

R. M. Krich
Vice President, Licensing Projects

cc: Steven P. Kraft, NEI
