Rules and Directives  
Branch  
NRC

Dear Mr Lesar and Mr. Harris,

I attended the public meeting in North Augusta August 27, and would like to comment on the proposed Construction Authorization Request by Duke COGEMA Stone and Webster (DCS) to build a MOX fabrication facility at the Savannah River Site.

Since COGEMA has been involved in MOX and plutonium reprocessing facilities in France and Le Hague, I would request that NRC take independent responsibility to contact environmentalist groups near these facilities and solicit comments regarding the safety and environmental record of these facilities. Groups such as WISE-Paris and Greenpeace have specifically monitored these facilities, and I believe the NRC should take their observations into consideration

Sincerely,

Meira Warshauer
