**B.3 DESCRIPTION/ SPECIFICATIONS/ STATEMENT OF WORK
FLUENT CFD Software****BACKGROUND**

The FLUENT computational fluid dynamics code (CFD) has been in continuous use by the U. S. Nuclear Regulatory Commission (NRC), Office of Nuclear Regulatory Research (RES) since 1997. RES has used FLUENT to predict mixed convection, boron mixing, and pressurized thermal shock. RES has used FLUENT to support user offices in evaluation of licensee submittals, decommissioning rulemaking activities, and the steam generator action plan. Its use is expected to be needed for advanced reactor research. Continued use of FLUENT is a key component of the RES High Performance Computing Plan.

RES presently leases 1 serial and 12 parallel process licenses for FLUENT on a yearly basis. One person in RES has utilized this resource for over three years. Recently, two RES staff members have been hired to perform CFD analysis. Additional FLUENT licenses are needed now and a perpetual licensing agreement is sought which will reduce long term costs for the use of the FLUENT code. The increase in FLUENT licenses and the conversion to a perpetual license will be spread over a two fiscal year period as outlined below. Beyond 2 years, a maintenance fee will be required to keep the code up to date and for unlimited technical support from FLUENT Inc. In addition, a lease of additional licenses on a yearly basis will be required for specific project support.

OBJECTIVE

The NRC's objective for this contract is to:

- a. increase FLUENT licenses by obtaining serial and parallel licenses;
- b. obtain perpetual license agreements;
- c. obtain FLUENT software maintenance.

SCOPE OF WORK

Major tasks associated with this SOW include:

- FY02 - Convert the current annually renewable license of one serial plus 12 parallel processes under DR-02-0049 to a perpetual license.
- Purchase annual lease of 4 serial and 16 parallel licenses
- FY03 - Maintain perpetual license on 3 serial and 12 parallel licenses
- Convert 2 serial and 8 parallel licenses to a perpetual license
 - Purchase annual lease of up to 4 serial and 20 parallel licenses
 - Adjust anniversary date to December to coincide with other NRC license (NRR key)

- FY04 - Maintain perpetual license on 5 serial and 20 parallel licenses
 - Purchase annual lease of up to 4 serial and 20 parallel licenses
- FY05 - Maintain perpetual license on 5 serial and 20 parallel licenses
 - Purchase annual lease of up to 4 serial and 20 parallel licenses
- FY06 - Maintain perpetual license on 5 serial and 20 parallel licenses
 - Purchase annual lease of up to 4 serial and 20 parallel licenses

(a) The Contractor warrants that the supplies identified as line items 0001 through 0022 in the Schedule are, except for modifications required by the contract specifications, supplies for which it has an established price. The term "established price" means a price that (1) is an established catalog or market price for a commercial item sold in substantial quantities to the general public, and (2) is the net price after applying any standard trade discounts offered by the Contractor. The Contractor further warrants that, as of the date of this contract, any difference between the unit prices stated in the contract for these line items and the Contractor's established prices for like quantities of the nearest commercial equivalents are due to compliance with contract specifications and with any contract requirements for preservation, packaging, and packing beyond standard commercial practice.

(b) The Contractor shall promptly notify the Contracting Officer of the amount and effective date of each decrease in any applicable established price. Each corresponding contract unit price (exclusive of any part of the unit price that reflects modifications resulting from compliance with specifications or with requirements for preservation, packaging, and packing beyond standard commercial practice) shall be decreased by the same percentage that the established price is decreased. The decrease shall apply to those items delivered on and after the effective date of the decrease in the Contractor's established price, and this contract shall be modified accordingly.

(1) The aggregate of the increases in any contract unit price under this clause shall not exceed 10 percent of the original contract unit price.

(2) The increased contract unit price shall be effective (i) on the effective date of the increase in the applicable established price if the Contracting Officer receives the Contractor's written request within 10 days thereafter or (ii) if the written request is received later, on the date the Contracting Officer receives the request.

(3) The increased contract unit price shall not apply to quantities scheduled under the contract for delivery before the effective date of the increased contract unit price, unless failure to deliver before that date results from causes beyond the control and without the fault or negligence of the Contractor, within the meaning of the Default clause.

(4) No modification increasing a contract unit price shall be executed under this paragraph (c) until the Contracting Officer verifies the increase in the applicable established price

(5) Within 30 days after receipt of the Contractor's written request, the Contracting Officer may cancel, without liability to either party, any undelivered portion of the contract items affected by the requested increase.

(d) During the time allowed for the cancellation provided for in subparagraph (c)(5) above, and thereafter if there is no cancellation, the Contractor shall continue deliveries according to the contract delivery schedule, and the Government shall pay for such deliveries at the contract unit price, increased to the extent provided by paragraph (c) above.
