John Jankovich
SS&D Team Leader
Division of Industrial & Medical Nuclear Safety
Mailstop T-8F5
U.S. Nuclear Regulatory Commission
Washington, DC 20555

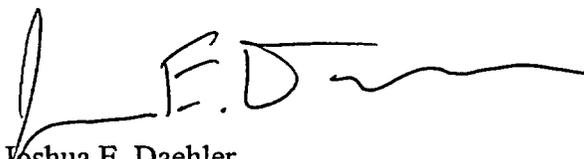

Dear Mr. Jankovich:

We have completed action on four (4) Sealed Source and Device registration certificates, each for AEA Technology QSA, Inc.

- (1) Registration No. MA-1059-S-105-S is for Model A424-13, A424-14, A424-15, A424-18 and 943 radiographic source assemblies. Please find enclosed a copy of this registration. This registration supercedes registration No. NR-0628-S-105-S.
- (2) Registration No. MA-1059-D-111-S is for Model 770 radiographic source changer device. Please find enclosed a copy of this registration. This registration supercedes registration No. NR-0628-D-111-S.
- (3) Registration No. MA-1059-S-113-S is for Model 875XX Series and 88702 radiography sources. Please find enclosed a copy of this registration. This registration supercedes registration No. NR-0628-S-113-S. Additionally, please delete registration No. NR-0628-S-193-S from the registry. NR-0628-S-193-S (dated February 26, 1990) is believed to be an old amendment version of NR-0628-S-113-S (dated October 21, 1993) for the Model 875XX Series radiography sources.
- (4) Registration No. MA-1059-S-126-S is for Model A424-19, A424-25W radiographic source assemblies. Please find enclosed a copy of this registration. This registration supercedes registration No. MA-0628-S-126-S.

If you have any questions please contact me at (617) 727-6214, Extension 2015.

Sincerely,

A handwritten signature in black ink, appearing to read 'J.E.D.' followed by a long, wavy horizontal line.

Joshua E. Daehler
Radiation Control Officer
Radiation Control Program
