Ms. Karen D. Cyr, Gen. Counsel
Nuclear Regulatory Commission
One White Flint North
11555 Rockville Pike
Rockville, MD 20852-2738

Dear Ms. Cyr:

I've got a very serious question that I need your help with. Since it deals with Nuclear Waste. I believe that your agency is the best suited to answer these questions with accuracies. I have developed a way to neutralize nuclear waste bi-product making it safe for storage. This procedure can be done with any waste; be it Industrial, Commercial, Biological or Nuclear. All of it can be safely dealt with. My problem is that I have no patent on this procedure, but I know that it is worth billions of dollars to the Government. This procedure would be half the cost of the present plan that the Federal Government is face with now. That means whatever the Government decides to place in Yucca Mountain would be a thousand times safer if my procedure is applied first. This type of waste will continue to grow so long as there exist a need for its use. That means more waste to be treated and stored.

The other benefit is to the thirty (39) nine state that are presently storing this waste. The Federal Government has received the okay to store this waste in Nevada's Yucca Mountain site. The existing problem is that Seventy Seven Tons is to be transported on the highways and railways to Yucca Mountain. Spillage or seepage pose a major problem. Now my procedure can be done on site in each state. That means a lot of jobs for the people who will be applying this neutralizing procedure. So, could you direct me to whomever it

~~I need to contact. This is a multi-phased nuclear business.~~

is I need to contact. This is a multi-billion dollar business. I can provide a safer environment for these materials and a great deal of jobs in thirty nine states. I need your help and I am willing to give you a percentage for your assistance. I hope that you won't let my being incarcerated pose a problem or cause a concern on your part. An idea can be manifest anywhere even in prison. There is no doubt in my mind that this procedure will work. Just point me in the right direction and we both will be happier. I can assure you that this will not be a waste of your time.

In conclusion: I would like to thank you in advance for your time, consideration and of course your anticipated assistance with regards to the above mentioned matters. Best wishes!

I remain:

Respectfully yours,

Perry Ford, 80-A-0836
