REQUEST FOR WITHDRAWAL OF RELIEF REQUEST SC-RR-A07

By letter dated July 8, 2002, PSEG Nuclear LLC (PSEG) submitted the subject relief request for Nuclear Regulatory Commission (NRC) approval. The relief request, SC-RR-A07, was submitted for the use of Code Case N-568, *Alternative Examination Requirements for Welded Attachments, Section XI, Division 1*, where a component support or a portion of a component support might obstruct examination of welded attachments. The request for relief is for the second 10-year Inservice Inspection (ISI) interval in which Salem adopted the 1983 Edition of ASME Section X1, including Summer 1983 Addenda, as the Code of record.

Subsequent discussions with NRC staff on September 12, 2002 have resulted in the determination that relief as requested is not necessary at this time. Therefore, this letter requests withdrawal of Relief Request SC-RR-A07.

Should you have any questions regarding this request, please contact Mr. Howard Berrick at 856-339-1862.

Sincerely,

A handwritten signature in black ink, appearing to read "G. Salamon", written over the printed name.

G. Salamon
