Mr. Terry D. Lindsey, Manager
Radiation Protection Services
Department of Human Services
800 NE Oregon Street, Suite 260
Portland, OR 97232-2162

Dear Mr. Lindsey:

As requested, we have reviewed Oregon Administrative Rules (Div. 333), Radiation Protection Services, received by letter dated August 8, 2002, with additional material arriving electronically August 19 and August 26, 2002. The proposed regulations are in response to 25 amendments identified in the enclosed State Regulation Status (SRS) Data Sheet. The regulations were reviewed by comparison to the equivalent NRC regulations in 10 CFR Parts 19, 20, 30, 31, 32, 34, 35, 36, 39, 40, 70, 71 and 150. We discussed our review of the regulations with Mr. Ed Wright of your staff on August 19, September 6, and October 17, 2002.

As a result of our review, we have 41 comments and 15 editorial suggestions. As discussed with Mr. Wright of your staff, your proposed medical rules were reviewed against the current Part 35 rule for compliance with amendments, RATS ID #'s 1992-1, 1995-1, 1995-7, 1997-3 and 1998-5. The submitted proposed rules did not include enough of the new Part 35 rule to allow this office to review your medical rules based on the new Part 35 requirements. Please note that we have limited our review to regulations required for compatibility and/or health and safety. Under our current procedure, a finding that a State regulation meets the compatibility and health and safety categories of the equivalent NRC regulation may only be made based on a review of the final State regulation. However, we have determined that if your proposed regulations were adopted, incorporating the comments and without other significant change, they would meet the compatibility and health and safety categories established in Office of State and Tribal Programs (STP) Procedure SA-200.

The SRS Data Sheet summarizes our knowledge of the status of other Oregon regulations as indicated. This letter including the SRS Data Sheet is posted on the STP Web Site: <http://www.hsrdo.org/nrc/rulemaking.htm>. If you have any questions regarding the compatibility and health and safety categories, or any of the NRC regulations used in the review, please contact me or John Zabko of my staff at 301-415-2308 or e-mail at JGZ@NRC.GOV.

Sincerely,

/RA/

Office of State and Tribal Programs

Editorial Suggestions

1. In 333-100-0005, in the definition of ALARA, "As Los As.." should be "As Low As."
2. In 333-100-0005, in the definition of Becquerel, the abbreviation should read "Bq" rather than "Gq."
3. In 333-100-0005, in the definition of Gray, the definition should read "an absorbed dose," rather than "and absorbed dose."
4. In 116-0020(25), "teletherapy" is misspelled.
5. In 333-121-0190(1), the activity is given as 2×10^{17} rather than the scientific notation of 2×10^{17} .
6. In 333-118-0020, the definitions are not numbered correctly. The State has skipped #13 and has numbered directly from 12 to 14.
7. In 333-118-0020, the definitions are not numbered correctly. The State has omitted numbering definition #21, Uranium.
8. In 333-118-0090(2), the State has not grouped the conditions correctly. There should be three subsections (a) (b) (c) and a colon placed after "...licensee who.." (a) should be "Has a quality..... (b) should be "Complies with" And (c) should be "Has a quality....."
9. In 333-118-0160 (4), plutonium is misspelled.
10. In 333-105-0005, the definitions are not numbered correctly between 17 and 19. The number 18 is omitted.
11. In 333-100-0005 (11) "ALARA", the end parenthesis is omitted in the first sentence.
12. In 333-100-0005 (41), it is suggested that the table of weighing factors, that appears at the end of the definition section, be referenced in the definition. The table is part of the definition and has been separated by the State.
13. In 333-118-150 (10), The State has the wrong reference. The correct reference is OAR 333-118-150 (9) not (10).
14. In 333-118-0190 the State did not mention that a list of contacts is posted in the Federal Registry each year as per 71.97 3 (i) and (ii).
15. The State copied the Suggested State Regulations (SSR's), Part Q, for irradiators but did not change the references in the section. The State needs to perform a technical editing of this section and remove the SSR page titles and the SSR references found in the section. For example, 333-121-0010 (4) references "Q.19" which is a SSR reference not an Oregon regulation reference.
