Dear Mr. Merschoff:

I want to thank the U.S. Nuclear Regulatory Commission, Region IV office, for their help in expediting the 21<sup>st</sup> Century Technologies thinner walled amendment. I was very pleased with the swift and efficient manner with which the reviewers in the Washington, DC office handled our request.

Let me assure you that it remains our top priority to resolve all NRC concerns. The last requested item from CAL No. 4-2-005A, a review of our Q & A procedures, will be completed and forwarded to the Washington D.C. office today. Once again, I appreciate the help of all those who helped us from the Region IV office.

Sincerely,

  
Kevin Romney
