

October 18, 2002

Ms. M. Sue Semerena, Administrator
Consumer Health Services
Nebraska Health and Human Services System
Department of Regulation and Licensure
301 Centennial Mall South, P.O. Box 95007
Lincoln, NE 68509-5007

Dear Ms. Semerena:

We have reviewed the proposed Nebraska regulations for Control of Radiation-Ionizing (Title 180, Nebraska Administrative Code), received by this office on September 25, 2002. The proposed regulations are in response to the six amendments identified in the enclosed State Regulation Status (SRS) Data Sheet. The regulations were reviewed by comparison to the equivalent NRC regulations in 10 CFR Part 20, 30, 31, 32, 34, 36 and 39. We discussed our review of the regulations with Trudy Hill of your staff on October 8, 2002.

As a result of the NRC review we have one comment and two editorial suggestions. Please note that we have limited our review to regulations required for compatibility and/or health and safety. Under our current procedure, a finding that a State regulation meets the compatibility and health and safety categories of the equivalent NRC regulation may only be made based on a review of the final State regulation. However, we have determined that if your proposed regulations were adopted, incorporating the comments and without other significant change, they would meet the compatibility and health and safety categories established in Office of State and Tribal Programs (STP) Procedure SA-200.

The SRS Data Sheet summarizes our knowledge of the status of other Nebraska regulations as indicated. This letter including the SRS Data Sheet is posted on the STP Web Site: <http://www.hsrcd.ornl.gov/nrc/rulemaking.htm>. If you have any questions regarding the compatibility and health categories, or any of the NRC regulations used in the review, please contact me at 301-415-2325 or John Zabko of my staff at 301-415-2308 or E-mail: JGZ@NRC.GOV.

Sincerely,

/RA/

Josephine M. Piccone, Deputy Director
Office of State and Tribal Programs

COMMENTS ON PROPOSED NEBRASKA REGULATIONS
AGAINST AND HEALTH AND SAFETY CATEGORIES

State Regulation	NRC Regulation	RATS ID	Category	Subject and Comments
180-4-022	20.1502	1998-5	D, H&S	<p>Conditions requiring individual monitoring of external and internal occupational dose</p> <p>As a result of combining 20.1502(2,3), the intent of the rule has been changed and results in a different dose at which monitoring is required.</p> <p>In 20.1502, paragraphs (a)(2) and (b)(2), contain the monitoring requirements for minors and pregnant women. The dose limits for minors in (a)(2) apply for an entire year, while for a declared pregnant woman, the dose limit in (b)(2) applies only to the 9-month gestation period.</p> <p>The State should separate the requirements for minors from the requirements for declared pregnant women as stated in 20.1502</p>

Editorial Suggestions

1. In 180-4-002, there should be separation between the definitions of “declared pregnant woman” and “demand respirator.”
2. In 180-4-058.01(b), the State should make the following change: replace “eye dose equivalent” with “lens dose equivalent.”

STATE REGULATION STATUS

State: Nebraska

[6 amendments reviewed are identified by a ★ at the beginning of each equivalent NRC regulation.]

Tracking Ticket Number: 2-225

Date: October 18, 2002

1. Or other generic Legally Binding Requirements.
2. (Y/N) Y means "Yes," there are comments in the review letter that the State needs to address.
N means "No," there are no comments in the review letter.
3. Not required means these regulations are not required for purposes of compatibility.
4. A State need not adopt a specific regulation if the State has no licensees that would be subject to that regulation. See: "Final Policy Statement on Adequacy and Compatibility of Agreement State Programs," III.1. Time Frame for Adoption of Compatible State Regulations, p. 6, SECY-95-112, May 3, 1995.
