**OPERATING SUMMARY**

The unit continued end-of-cycle coastdown operations which began in August 2002. A plant shutdown was commenced on September 6, 2002, in preparation for refueling. On September 7, 2002, the main generator was separated from the grid at 0040 hours and the reactor was shutdown at 0552 hours. The unit continued the shutdown for refueling and maintenance for the remainder of September 2002.
