Reference: (a) Letter, Vermont Yankee to USNRC, "Request for Relief from the American Society of Mechanical Engineers Code for Repair of a Pin-Hole Leak in a Lube Oil Cooler," BVY 02-59, dated August 22, 2002

Subject: Vermont Yankee Nuclear Power Station
License No. DPR-28 (Docket No. 50-271)
Withdrawal of Request for Relief from the American Society of Mechanical Engineers Code for Repair of a Pin-Hole Leak in a Lube Oil Cooler

In Reference (a) Vermont Yankee (VY) requested, pursuant to 10CFR50.55a(a)(3)(ii), to delay the repair of a minor pin-hole leak on the Service Water side of the "A" Emergency Diesel Generator (EDG) lube oil cooler until the 2002 refuel outage. VY has replaced the subject component and therefore relief from the code is no longer required. This letter serves to withdraw the request made via Reference (a).

We trust that this information is adequate; however, should you need additional information please contact Mr. Jim DeVincentis at (802) 258-4236.

Sincerely,

A handwritten signature in black ink that reads "Gautam Sen".
