**Subject:** First Energy Brief

FirstEnergy (Davis-Besse) reps called me this morning to discuss their perspectives on CRDM penetration cracking. They are scheduled to come in next Thursday to meet with our office. If other offices are interested, I recommend that we schedule a TA brief. They are flexible and will conduct two briefings if there are schedule conflicts. They have also indicated that they would not object if an EDO rep sat in on the briefing.

We are scheduled for 10 am next Thursday. Please let me know if you are interested and if so, whether 10 am works

Thanks,  
Tom
