Dear Sir,

I am in support of allowing the Hartsville plant going straght ahead with the production schedule. I also favor their acquiring the appropriate license to start and maintain efficient production output.

I am a member of SEAC, however, I fully realize that nuclear power can be safe and cost effective. I ask you to proceed and allow this plant to go forward.

This will enable this region of Tennessee to boost its tax base with new jobs that this plant will provide. This a win situation for everyone.

Thank You.

Sincerely,

Carl Gillig
