Database of Technical Issues

- Industry has developed a database record of all technical issues raised during the GLCP process (e.g., IP2 Lessons Learned, RIS 2000-22, Staff comments to GLCP, NEI 97-06 and EPRI GLs).
 - Database considered a work in progress
 - Reviews by Staff and Industry required to ensure all items addressed and correct status identified.
 - Discuss priority assignments

Future Actions

- SG Technical Issue Protocol
- Meetings
