GE Nuclear Energy

General Electric Company  
P.O. Box 780, Wilmington, NC 28402  
910 675-5000

August 4, 1998

Mr. Cass R. Chappell  
Package Certification Section  
U.S. Nuclear Regulatory Commission  
Washington, D.C. 20555-0001

Dear Mr. Chappell:

Subject: Certificate of Compliance Application for the Model SRP-1 Package

GE's Nuclear Energy Production facility in Wilmington, N. C. hereby requests that the enclosed Safety Analyses Report (SAR) for the Model SRP-1 be reviewed for approval and that an NRC Certificate of Compliance be issued based upon this application.

The SRP-1 as described in the enclosed SAR meets the Type A Fissile requirements. The package also meets the requirements for Normal Conditions of Transport as demonstrated by the testing provided in the SAR. Hypothetical Accident testing is not necessary, because no credit is taken for the packaging in the criticality safety analysis.

A copy of GE drawing 0025E98, Rev. 0 for the SRP-1 is also enclosed.

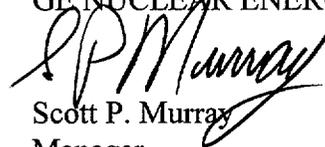

The enclosed SAR has been prepared in accordance with 10CFR71.

Seven (7) copies of this application are being provided for your use.

Please contact Rick Foleck on (910) 675-6299 or me on (910) 675-5950 if you have any questions or would like to discuss this matter further.

Sincerely,

GE NUCLEAR ENERGY

  
Scott P. Murray  
Manager  
Facility Licensing
