WASHINGTON, DC 20555 - 0001**

September 20, 2002

Lorraine Hellinghausen
Radiation Safety Officer
TRUGLO, Inc.
13745 Neutron Road
Dallas, Texas 75244

Dear Ms. Hellinghausen:

This letter is in reference to your application dated June 12, 2002, requesting a license for a device containing byproduct material, and your letter dated August 29, 2002, providing additional information requested. In order to continue our review, please provide the additional information listed in the Enclosure.

We will continue our review upon receipt of this information. If we do not receive a response from you in 30 days, we will consider your request as having been abandoned and void the active control for your request. This action would be without prejudice to the resubmission of another request.

If you have any questions, please contact me at (301) 415-7637, or John Jankovich at 301-415-7904.

Sincerely,
/RA/

Nima Ashkeboussi, Engineering Aide
Materials Safety and Inspection Branch
Division of Industrial and
Medical Nuclear Safety
Office of Nuclear Material Safety
and Safeguards

Enclosure: As stated

Please provide the following additional information to support your application dated June 12, 2002 and your letter dated August 29, 2002. All NRC guidance mentioned can be obtained at www.nrc.gov.

1. Additional Information Required

- 1.1 The results of penetration, pressure, and shock testing have not been included in your letter. Please provide this information in accordance with NRC Report NUREG-1556 Volume 8, Appendix O, for gun sights.
- 1.2 Please state and confirm that you have taken into radiation analytical consideration (for accident conditions such as a fire) the maximum number of sources that would be stored at your facility at any given time.
- 1.3 Please state the number of sources in one container and provide the approximate inspection time and the radiation dose for this inspection duration.

2. Clarifications

- 2.1 Please note that you can only install sources in your device that have a registration certificate, such as MB-Microtec and SRB Technologies. Please note that sources manufactured by Lumitec are not registered with the NRC at this time.
- 2.2 The prototype bow sight sent to NRC (Exhibit A) shows as "H3-PT", while your application shows the labeling to be "H3-TG". Please clarify this discrepancy.
- 2.3 Please note that we have reviewed your application and will issue registration for bow sights only. Please note that a new application must be submitted for an amendment if you wish to register other products, such as gun sights, and will require prior NRC approval before distribution.
