

~~SECRET~~

September 21, 2001

NOTE TO: Nick Baynes, CIA

FROM: *RMW* Richard Wessman, Director
Incident Response Operations, USNRC

Regarding my note to you on September 19, 2001, we have revised page 5. The highlighted changes are intended to clarify the role of population density in determining the consequences of the postulated events. Note also that we have classified the assessment as Secret. Please replace the entire document with Enclosure 1.

I am also formally transmitting our preliminary assessment of the consequences of an attack on the Gaseous Diffusion Plants and the Honeywell conversion facility (Enclosure 2).

If you have any questions on the information provided, please contact our Safeguards Team at 301-816-5100.

Enclosures:

1. Revised Consequences of Large Commercial Aircraft Impacts on Commercial Nuclear Power Plants
2. Consequences of Large Commercial Aircraft Impacts on Gaseous Diffusion Plants
