MEMORANDUM TO: Bob Stephan, OHS

FROM: *F. Wessman* Richard Wessman, Director
Incident Response Operations
U. S. Nuclear Regulatory Commission

SUBJECT: PRIORITIZATION OF NRC-LICENSED FACILITIES

The attached document discusses how NRC-licensed facilities compare with each other with respect to the ability to withstand airplane crashes. It identifies variables that affect the ability of nuclear power plants to withstand airplane crashes, and a study the Commission has initiated to more fully understand those variables. It also identifies the schedule for results of the study.
