arsuant to North Carolina Regulations for Protection Against Radiation and in reliance on statements and representations heretofore made by the licensee, a license is hereby issued authorizing the licensee to receive, acquire, own, possess, transfer, and import radioactive materials listed below; and use such radioactive material for the purpose(s) and at the place(s) designated below. This License is subject to all applicable rules and regulations of the North Carolina Department of Environment and Natural Resources now and hereafter in effect and to any conditions specified below.

		Licens	ee	·

9.	Authorized L	Jse:						,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,	

A. To be used in a Troxler Model 4640 Series Nuclear Density Gauge for the purpose of determining quality control in construction materials.

CONDITIONS

- The authorized places of receipt and storage of radioactive materials are:
 - i) 4425 Pleasant Valley Road Raleigh, NC 27622.
 - ii) 110 W. Island Rd. Williamston, NC 27892-0602
 - iii) 174 Peavine Rd. Clinton, NC 28328
 - iv) 1134 Shaw Mill Rd. Fayetteville, NC 28303
 - v) 245 Cool Spring Rd. Rocky Mount, NC 27801-2874
- B. Radioactive materials may be used at temporary jobsites of the licensee throughout the State of North Carolina in areas not under exclusive Federal jurisdiction (Federal installations such as military bases, V.A. Hospitals, etc.). Authorization for the use of radioactive materials at temporary jobsites under exclusive Federal Jurisdiction shall be obtained either by (1) filing a NRC Form 241 [10 CFR 150.20(b)], or (2) applying for reciprocity, or (3) applying for a specific license from the NRC if the length of the job is to exceed six (6) months.
- Ç, This condition does not prohibit the use of radioactive materials in other states; however, before radioactive materials can be used at a temporary jobsite in another state, authorization must be obtained from the State, if it is an Agreement state, or from the Nuclear Regulatory Commission for any non-Agreement State, either by filing for reciprocity or applying for a specific license.

003

Page 2 of 4 License No.: <u>033-0958-1</u>

RADIOACTIVE MATERIALS SECTION DIVISION OF RADIATION PROTECTION N. C. DEPARTMENT OF ENVIRONMENT AND NATURAL RESOURCES RADIOACTIVE MATERIALS LICENSE

Supplementary Sheet

CONDITIONS (continued):

- The licensee shall comply with the provisions of 15A NCAC 11,1600 "Standards for Protection Against Radiation," and 15A NCAC 11,1000 "Notices, Instructions, Reports and Inspections." (The North Carolina Regulations for Protection Against Radiation are contained in 15A NCAC 11.)
- Licensed material shall only be used by Steve Andrews, Thomas Avery, Randy Burchette, Don Enderle, Jr., David Glover, Cora Nunnery, Teresa Patrick, Angela Rankins, John Shaw, and Kerley J. Willoughby or individuals who are employees of the licensee, have successfully completed a manufacturers training program for gauge users, have been instructed in the licensee's routine operating and emergency procedures and who have been designated in writing as having completed these requirements by the Radiation Safety Officer.
 - B. Records of these designations shall be maintained for three (3) years after the company no longer employs the individual.
 - C. The Radiation Safety Officer for the activities authorized under this license shall be John A. Godwin, Jr.
 - D. The Assistant Radiation Safety Officer for the activities authorized under this license shall be Randy Burchette.
- 13. A. Each sealed source containing radioactive material shall be tested for leakage and/or contamination at intervals not to exceed six (6) months. In the absence of a certificate from the transferor indicating that a test has been make within six (6) months prior to the transfer, the sealed source shall not be put into use until tested.
 - B. The test shall be capable of detecting the presence of 0.005 microcurie of radioactive material on the test sample. The test sample shall be taken from the sealed source or from the surfaces of the device in which the sealed source is permanently mounted or stored on which one might expect contamination to accumulate. Records of leak test results shall be kept in units of microcuries and maintained for inspection by the agency.
 - C. If the test reveals the presence of 0.005 microcurie or more of removable contamination, the licensee shall immediately withdraw the sealed source from use and shall cause it to be decontaminated and repaired or to be disposed of in accordance with agency regulations. A report shall be filed within five (5) days of the test with the Radioactive Materials Section, Division of Radiation Protection, Department of Environment and Natural Resources, 3825 Barrett Drive, Raleigh, NC 27609-7221, describing the equipment involved, the test results, and the corrective action taken.
 - D. Tests for leakage and for contamination shall be performed by persons specifically authorized by the agency to perform such services.
- The licensee may transport licensed material or deliver licensed material to a carrier for transport in accordance with the provision of Section 71.5, Title 10, Code of Federal Regulations, Part 71, "Packaging of Radioactive Material For Transport."
- 15. Sealed sources containing radioactive material shall not be opened or removed from their respective source holders by the licensee.
- Gauges that are equipped with a sliding block which require servicing shall be cleaned and lubricated only by personnel who are authorized in the license to use the gauge and who have received training on how to remove, clean and lubricate the sliding block properly. The sliding block may be removed provided:
 - A. Personnel removing the sliding block wear appropriate personnel monitoring equipment; and
 - B. Personnel removing the sliding block stay on the opposite side of the gauge from the sliding block and use a mirror to view the removal and reinstallation of the sliding block in order to minimize exposure.
- The radioactive source rod containing radioactive material which requires servicing may be removed from the gauge for cleaning and lubrication only in accordance with procedures contained in the gauge manual and only by persons who are authorized in the license to use the gauge and who have received training on how to remove, clean, and lubricate the source rod properly. The source rod may be removed provided:

Page 3 of License No.: 033-0958-

D04

RADIOACTIVE MATERIALS SECTION DIVISION OF RADIATION PROTECTION N. C. DEPARTMENT OF ENVIRONMENT AND NATURAL RESOURCES RADIOACTIVE MATERIALS LICENSE

Supplementary Sheet

CONDITIONS (continued):

- Personnel removing the source rod wear appropriate personnel monitoring equipment; 17 A.
 - The source rod is removed while in an appropriate area away from other people; B.
 - After the source rod is cleaned and lubricated, a calibration check is made to confirm the source rod is in the proper C. location and instrument readings are normal;
 - Records show the location, date, and name of the person performing the cleaning, lubrication, and calibration check; and D.
 - The above records are maintained for a period of three (3) years or until the agency authorizes their disposal. E.
- The licensee shall keep records for each device authorized in this license showing which authorized user has the device, the time 18, and date the device was removed from storage, job where device was used and the time and date the device was placed back into storage. Records of use shall be kept for two (2) years for inspection by the agency or until they have been reviewed by the agency and if the records are determined to be satisfactory, then they may be disposed of.
- The licensee shall conduct a physical inventory of all sealed sources received and possessed under this license at intervals not to 19. exceed six (6) months. Records of the inventories shall be maintained for inspection by the agency and shall include the quantities and kinds of radioactive material, location of sources and the date of the inventory.
- In addition to the possession limits in Item 8 above, the licensee shall further restrict the possession of licensed material to quantities below the minimum limit specified in 15A NCAC 11 .0353 for establishing decommissioning financial assurance.
- The Ilcensee shall annually review its Radiation Protection Program for content and implementation [Reference 15A NCAC II 21. .1603(c)]. Documentation of the Radiation Protection Program reviews shall be retained for inspection by the agency [Reference: 15A NCAC 11 .1636].
- The licensee shall institute the provisions of 15A NCAC 11.1610 when an occupationally exposed woman voluntarily informs her 22. supervisor, in writing, of the pregnancy and the estimated date of conception.
