Describe Follow-up: (Telephone, Internet, Chamber of Commerce, Other)		
<p>The vendor (NDC Systems) stated that Handy & Harmon was now known as Teleflex Automotive. Contact information for the Telflex Automotive HQ was found on the internet. The inspector called Teleflex HQ and got the number to a Lebanon, VA facility (276) 889-0041. A gentleman at the Lebanon plant remembered purchasing the Handy & Harmon business, and contacted Mike Auger in Teleflex Mexico, who worked with Handy & Harmon at the time it was bought. The Inspector called Mike Auger in Mexico 01152 (867) 715-1737. Mr. Auger stated that he remembered the device, and that it had been located on an extrusion machine in the H&H Martinsburg facility. Mr. Auger told the inspector that H&H was purchased by Teleflex Automotive in 1995, and the device was transferred to a location in Mexico, where it is currently in use. Mr. Auger also stated that the Mexico facility was in the process of disposing the device. After speaking with Mr. Auger, the inspector also contacted Daniel Greenwood, a Teleflex Safety and Compliance Manager in California, and asked him if any Teleflex facilities in the states might use these devices. Mr. Greenwood stated that he did not believe any more Teleflex plants used GLD's, but he said that he would contact the NRC if any devices are found that need to be registered.</p>
