JAMES A. FITZPATRICK NUCLEAR POWER PLANT  
P.O. BOX 110  
LYCOMING, NY 13093  
DOCUMENT TRANSMITTAL AND RECEIPT ACKNOWLEDGEMENT FORM

DATE: NOVEMBER 6, 2002  
CONTROLLED COPY NUMBER: 33

TO: U.S.N.R.C. (I & E) Region I  
FROM: CATHY IZYK - EMERGENCY PLANNING DEPARTMENT  
SUBJECT: EMERGENCY PLAN AND IMPLEMENTING PROCEDURES

Enclosed are revisions to your assigned copy of the JAFNPP Emergency Plan and Implementing Procedures. Please remove and **DISCARD** the old pages. Insert the attached, initial and date this routing sheet and return the completed routing sheet to **Cathy Izyk in the Emergency Planning Department within 15 days**. If this transmittal is not returned within 15 days, your name will be removed from the controlled list.

PERIODIC REVIEW DUE DATE: NOVEMBER 2007

## REVISION SUMMARY SHEET

## REV. NO.

- 12
  - Deleted attachment 12.
  - In section 4.1 changed the sections steps as referenced, and deleted reference to VT 100 compatible terminal with a modem.
  - In section 4.2 deleted reference to JAF network applications and replaced it with "Plant Information".
  - In section 4.3 - added the word Emulation.
  - In section 4.3 describes how to login to server JAFSR095.
  - In section 4.4.1 deleted reference to Windows 3.1.
  - Added sections 4.4.2, 4.3.3, & 4.4.4
  - Deleted former section 4.4 that dealt with remote dialup terminal.
  - In section 4.5 - added the words "RxTrend" and SP-7 & 8, Rad Mon.)
  - Replaced former section 4.7 with reformatted section 4.6
- 11
  - Reformat per AP-02.01, Rev. 5.
  - Complete rewrite due to new equipment and configuration.

## 1.0 PURPOSE

This procedure describes methods to establish a direct or remote terminal link to the Plant Parameter System, and a brief description of system capabilities.

## 2.0 REFERENCE

None

## 3.0 INITIATING EVENTS

None

## 4.0 PROCEDURE

### 4.1 General

The Technical Support Center (TSC) and Emergency Operations Facility (EOF) are equipped with Windows-based computers attached to the JAF Local Area Network (LAN). On these machines (and all other personal computers at JAF) there is an icon representing a Windows Plant Parameters program. If you are using one of these computers, proceed to Section 4.2.

If you have a personal computer attached to any NYPA LAN outside of JAF, you can use a terminal emulator program to connect to a character-based version of the Plant Parameters program (proceed to Section 4.3).

If you do not have any direct network link to the JAF LAN, you can still connect to a character-based version of the Plant Parameters program. If you have a personal computer with a modem, proceed to Section 4.4.

### 4.2 Direct Connection - PC

Locate the icon group labeled "Plant Information". Double click on that icon. Within the icon group is a single icon labeled "Plant Parameters." Double click the icon. Proceed to Section 4.5.

### 4.3 Direct Connection - Terminal Emulation

You must locate the telnet program on your personal computer. Connect to server "JAFSR095". At the "login:" prompt, enter "Oswego", press <enter>. At the "Password:" prompt, press <enter> (no password). Proceed to Section 4.6.

---

#### 4.4 Remote Dialup - PC

- 4.4.1 You must locate the modem dialer/terminal emulator program on your personal computer and make a connection to the Remote Access System (RAS). For example;
- A. Under Windows95, there is a terminal program in the Accessories menu.
  - B. Under Windows 98, in the "my computer" group, select "make a new connection".
- 4.4.2 Set the communications parameters as follows:
- A. Either 7 bit, even parity for 1200 baud modems, or 8 bit, no parity for 9600 baud modems.
  - B. Set the phone number to 1-800-270-0102.
  - C. Set the User Name as "nyoffic" and password as "ciffbyn"
- 4.4.3 When connected to RAS, select Start, Run, in the text box enter "telnet jafsr095.jaf.entergy.com" and press <enter>.
- 4.4.4 When connected to server 95, at the "login:" prompt, enter "oswego" and press <enter>. At the "Password:" prompt, press <enter> (no password). Proceed to Section 4.6.

#### 4.5 Operation - Windows

This program, like most Windows programs, has a menu bar located just below the title bar at the top of the window. The menu bar contains the following options: Screens, Trends, Panel, RxTrend, Print and Help.

Click on the Screens menu option to view the list of available screen displays. The choices are six preformatted displays (Elogs 1 through 6), the NYS Part III form, and Weather data, SP-7, SP-8, Rad Mon. Click on a choice to make the display appear.

There are also one-hour trend graphs of twenty predefined data points available under the Trends menu option.

You can print a copy of the currently displayed screen to your Windows default printer by clicking on the Print menu option.

There are more complete instructions available on-line by clicking on the Index choice under the Help option.

#### 4.6 Operation - Terminal

The Master Menu, shown in Attachment 1, will appear. You may now choose whatever options you wish. It is NOT necessary to press <return>. Simply enter the option number. The Master Menu will re-appear after choosing any option.

4.6.1 Type the letter "q" to exit the menu. If using dial-up modem, hang up the phone or press reset on the modem.

##### 4.6.2 Operation

The Plant Parameter System consists of nine preformatted screen displays (Attachments 2 - 9 and 11), and the ability to call up 15-minute meteorological data (Attachment 10). The data values for all displays are received from the Emergency and Plant Information Computer (EPIC) at one minute intervals. The time stamp which is displayed on all screens is the time at which data was collected on the EPIC computer.

NOTE: If any screen display appears incomplete, a one minute update may have occurred while your display was being formatted. Simply return to the Master Menu and choose the same option again.

NOTE: [TAB, ?, q] appears at the bottom of the screen. Use of this function enables the user to display the computer identification instrument number, unit of measure and a more complete description (see Attachment 10). To use this function, bring up an ELOG screen and note [TAB, ?, q] at bottom of screen.

- A. Press "TAB" once - an arrow will appear to the LEFT of the first parameter on the screen.
- B. Press "TAB" to move the arrow to the desired parameter.
- C. Once the desired parameter is selected, simultaneously press "shift" and "?" to view display.
- D. Press any key to eliminate this inset display from screen.
- E. Continuous update of display may be selected by pressing "C".

CONTROLLED COPY # 33

PERIODIC REVIEW DUE DATE: JANUARY 2006

## REVISION SUMMARY SHEET

## REV. NO.

- 34 • Updated procedure change from RP-RAM-102 to RP-OPS-04.01 throughout the entire procedure.
- 33 • Added section 4.6 in regards to non-JAF procedures.
- Added section 4.10.4 in regards to Fire Brigade Equipment Inspections.
- On Attachment 6, 10, 15, and 17 added the word Inspection to the respirator check off.
- On Attachment 7, Page 1 of 4, removed the stock numbers for the for the WPO copiers.
- On Attachment 11, added check off for pager envelope.
- On Attachment 12, added statement as to where the procedures are located and directions.
- On Attachment 15, added "Kimwipes" after absorbent towels.
- On Attachment 15, page 2, deleted "Lo Vol Sampler" and replaced it with AMS-3.
- On Attachment 17, page 1, added check off for portable scalers.

2.2.3 Radiation Protection Procedures

2.2.4 FPP-1.1, Fire Brigade Duties and Outside Fire Department Response

## 3.0 INITIATING EVENTS

None

## 4.0 PROCEDURE

4.1 The Rad Protection Manager shall assign personnel to inventory, inspect, and operationally check the emergency equipment listed on Attachment 1.

4.2 The Fire Brigade Leader shall ensure that all equipment used by the Fire Brigade is returned to service following fire drills and real events.

- 4.3 Emergency equipment, other than respiratory protective equipment stored for emergency use, shall be inventoried, inspected, and operationally checked using Attachments 2 through 17 as follows:
- 4.3.1 At least each calendar quarter.
  - 4.3.2 After each use.
  - 4.3.3 After a seal has been found broken.
- 4.4 Items included for use by the Fire Brigade, First Aid Team or Rescue Team (Attachments 2, 3 and 4) shall be inventoried, physically inspected and operationally checked as follows:
- 4.4.1 At least each calendar quarter.
  - 4.4.2 After each use.
  - 4.4.3 After a seal has been found broken.
- 4.5 Respiratory protective equipment stored for emergency use shall be inventoried, inspected, and operationally checked in accordance with RP-RESP-01.01 as follows:
- 4.5.1 At least monthly.
  - 4.5.2 After each use: (Fire Brigade equipment will be replaced by Fire Brigade following use).
  - 4.5.3 After a seal has been found broken.
- 4.6 Non-JAF procedures, shall be inventoried, inspected, and revision verified using Attachments 3 and 12 as follows:
- 4.6.1 At least annually (during the first quarter of each calendar year).
- 4.7 Dosimetry will be issued to E-Plan and tracked for replacement by the Dosimetry Group (TLDs) and Calibration Group (DRDs).
- 4.8 The person performing the equipment inventory shall use the appropriate Attachment, 2 through 17. (Fire Brigade may use the checklist provided at the lockers by Fire Protection following drills or real events).

4.9 Instruments and air samplers shall be issued to Emergency Planning by the Rad Protection Calibration Group or Rad Protection Respiratory Protection Group, as applicable. The applicable group is responsible for:

4.9.1 Tracking calibration due dates and replacing instruments as required.

4.9.2 Ensuring that instruments are available for replacement prior to calibration due date expiration and that the proper personnel are notified for instrument changeout.

4.10 The following information should be used as a guide for performing inventories:

4.10.1 Survey Instruments

- A. Perform an inventory. Notify Rad Protection Calibration Group to replace any missing instruments.
- B. Visually inspect batteries for leakage. Perform battery check. If batteries are leaking or fail the battery check, replace the batteries.
- C. Perform an operability check in accordance with applicable instrument procedure.
- D. Perform a source check in accordance with applicable instrument procedure.
- E. Notify Rad Protection Calibration Group to replace any unsatisfactory instruments.
- F. Record the identification number and calibration date of any replacement instruments on the checklist as indicated.
- G. Ensure any radioactive sources are accounted for in accordance with RP-OPS-04.01.
- H. Note any unusual conditions, discrepancies, and all actions taken on the checklist.

## 4.10.2 Air Samplers

- A. Perform an inventory. Replace any missing samplers.
- B. Check that calibration dates are current. Notify the Respiratory Group to replace with recently calibrated instruments as necessary.
- C. Verify samplers are operational by energizing and running for at least 1 minute. Note the results on the checklist. Replace any unsatisfactory samplers.
- D. Record the identification number and calibration date of any replacement samplers on the checklist.
- E. Note any unusual conditions, discrepancies, and all actions taken on the checklist.

## 4.10.3 Self-contained Breathing Apparatus/Breathing Air Systems

- A. Perform an inventory. Notify the Respiratory Group to replace any missing equipment.

## 4.10.4 Iodine Cartridges for Respirators

- A. Perform an inventory. Notify the Respiratory Group to replace any missing equipment.
- B. Check the expiration date on the iodine cartridges and replace any which are past that date. If the expiration date is before the next scheduled inventory, replace the cartridges.

## 4.10.5 Fire Brigade Equipment Inspection

## A. Fire Coat and Pants

- 1. Check outer and inner shell for rips or tears;
- 2. Discoloration or dirt contamination of outer shell;
- 3. Zipper or closures work properly

---

B. Fire Helmet

1. No cracks in shell;
2. Straps intact;
3. Ratchet works properly

C. Any items found unsatisfactory, contact Fire Protection for replacement of item.

## 4.10.6 Rubber Equipment

- A. Perform an inventory. Replace any missing equipment.
- B. Replace any equipment which appears to be ripped, cracked, missing closure devices, or unusable for any reason.
- C. Note any equipment replacement on the checklist.
- D. Note any unusual conditions, discrepancies, and all actions taken on the checklist.

## 4.10.7 Decontamination Supplies And Solutions

- A. Perform an inventory. Replace any missing items.
- B. Check containers, which contain liquid for any evidence of leakage and replace, as necessary.
- C. Note any other equipment replacement on the checklist.
- D. Note any unusual conditions, discrepancies, and all actions taken on the checklist.

## 4.10.8 Mechanical Equipment

- A. Perform an inventory. Replace any missing equipment.

B. Check mechanical equipment with moving parts, such as jacks and bolt cutters, for correct operation and freedom of movement. Replace any unsatisfactory equipment.

C. Note any unusual conditions, discrepancies, and all actions taken on the checklist.

#### 4.10.9 Office Supplies

A. Perform an inventory. Replace any missing items.

B. Replace any items which appear to be deteriorated or unusable for any reason.

C. Note any equipment replacement on the checklist.

#### 4.10.10 Plans, Maps, Lists, Procedures, etc.

A. Perform an inventory. Replace any missing items with a copy of the current revision.

B. Prior to performing the inventory, obtain the current revision numbers of the JAF Emergency Plan and Procedures from the Emergency Planning Coordinator, contact the procedure issuer for non-JAF procedures.

C. Replace any items which appear to be deteriorated or unusable for any reason.

D. Verify procedures are the current revision and replace, as necessary.

E. Note any equipment replacement on the checklist.

#### 4.10.11 Medical Supplies

A. Perform an inventory. Replace any missing items.

B. Check for open containers and damaged items. Replace, as necessary.

C. Check the expiration date on items and replace any which are past that date. If the expiration date is before the next scheduled inventory, replace the supplies.

D. Note any equipment replacement on the checklist.

4.10.12 110 Volt Power Supplies

A. Check for mechanical operability. Energize and run an air sampler for at least 1 minute.

B. Note any malfunction on the checklist.

4.10.13 Use of Seals

A. Numbered seals may be used on kits or inventoried items to indicate that the inventory has not been depleted since the seal was attached.

B. An inventory of the contents does not have to be performed unless the seal has been broken or the seal numbers do not agree with the seal numbers on the previous inventory sheet.

4.10.14 Medical Stretchers

A. Blue restraints - check for fraying and signs of wear.

B. Lifting bridle - check for fraying and signs of wear.

C. Blue swing - check for fraying and signs of wear.

D. Orange stretcher - check for cracking, especially the hand holds.

4.10.15 Accountability Card Readers

Perform a test of accountability card readers at the following locations:

- Control Room
- OSC

- TSC
  - Old Admin Bldg, 272' El., near the OSC Control Point:
    - A. Contact Security to perform an accountability system check with the SAMS computer/printer.
    - B. Swipe badge at each accountability card reader.
    - C. Obtain verification from Security that accountability indicated satisfactory from all card readers.
- 4.11 The person performing the inventory shall complete and sign the appropriate checklists and forward the completed checklists to the Emergency Planning Coordinator.
- 4.12 The Emergency Planning Coordinator, or designee, shall review, sign, and file the completed checklists.
- 4.13 Attachments 2 through 15, and 17, are Quality Records retained per AP-02.08.
- 4.14 The Emergency Planning Coordinator, or designee, shall ensure inventories are satisfactory.

PERIODIC REVIEW DUE DATE: NOVEMBER 2007

## REVISION SUMMARY SHEET

## REV. NO.

- 18
  - Added new step in Attachment 1, DRILL OR EXERCISE CONDUCT CHECKLIST, to evaluate potential adverse affects of the quantity of ERO trainees.
  - Added observer form for the Training Building in attachment 2.
- 17
  - Changed Observer to Evaluator throughout the entire procedure.
  - In sections 5.2.5 updated the plant personnel's titles
  - In section 6.2 reworded information on lead controller being station in the CR.
  - Deleted 7.2 section that refers to observer being selected with the concurrence of the Site Ex. Officer.
  - Deleted reference to DER's in section 8.2 and referred it to CRs.
  - On attachment 1 changed responsibility for resenting the drill EPC rather than the Plant Management.
  - Changed any reference to Niagara Mohawk with NMPC.
- 16
  - An adjustment was made to the cover sheet to reflect the Company name change.
  - Added Section 9.0 to clarify acceptance criteria for NRC performance indicators.
  - In Section 2.2, two additional references were listed.
  - Step 4.5 was added; referencing section 9 of this procedure.
  - Editorial corrections were made on page 6 acknowledging the resent company change.
- 15
  - Revised Observer Evaluation forms (Attachment 2) to collect NRC performance indicator data points for Drill/Exercise Performance.
  - Revised Attachment 1 Drill or Exercise Conduct Checklist, to tabulate and calculate NRC performance indicators for Drill/Exercise Performance.
- 14
  - Attachment 2, pages 46-48: deleted as these Observer Evaluation Forms are no longer required. HQ ERC is being eliminated as part of this revision.
  - In section 8.1, 8.2, & 8.3 - added "or designee".
  - Added "or designee" to sections 8.1, 8.2, & 8.3.

## 1.0 PURPOSE

To establish a procedure for the conduct and evaluation of all Emergency Plan Drills and Exercises at JAFNPP. This procedure also outlines the management controls used to ensure that corrective actions are implemented.

## 2.0 REFERENCES

### 2.1 Performance References

None

### 2.2 Developmental References

- 2.2.1 NUREG-0654, Criteria for the Preparation and Evaluation of Radiological Emergency Response Plans and Preparedness in Support of Nuclear Power Plants
- 2.2.2 JAFNPP Emergency Plan and Implementing Procedures, Volumes 1, 2 and 3
- 2.2.3 SAP-1, MAINTAINING EMERGENCY PREPAREDNESS
- 2.2.4 AP-02.03, EMERGENCY PREPAREDNESS
- 2.2.5 AP-02.04, CONTROL OF PROCEDURES
- 2.2.6 NEI 99-02, Revision 0, Regulatory Assessment Performance Indicator Guideline'
- 2.2.3 2.2.7 NUREG-0654, Criteria for the Preparation and Evaluation of Radiological Response Plans and Preparedness in Support of Nuclear Power Plants

## 3.0 INITIATING EVENTS

None

## 4.0 PROCEDURE

- 4.1 Drill conduct is discussed in Section 5 of this procedure. This section delineates the minimum acceptable activity for a drill at JAFNPP.

- 4.2 Exercise conduct is discussed in section 6 of this procedure. This section delineates the minimum acceptable activity for an exercise at JAFNPP.
- 4.3 Evaluator conduct is discussed in Section 7 of this procedure. This section specifies the minimum acceptable, preparation, training and response required for an evaluator of a JAFNPP drill or exercise.
- 4.4 Critiques and corrective actions are discussed in Section 8 of this procedure. This section specifies the method in which problems with Emergency Preparedness at JAFNPP are handled.
- 4.5 Drill and Exercise Performance Indicator (PI) evaluation is discussed in Section 9 of this procedure. This section describes the minimum acceptable performance indicator evaluation criteria.
- 5.0 DRILL CONDUCT
- 5.1 Drills shall be directed with the frequency established by SAP-1, MAINTAINING EMERGENCY PREPAREDNESS.
- 5.2 Drills shall be directed by a lead controller who shall be responsible for conducting the drill in accordance with the drill scenario and the drill report:
- 5.2.1 The lead controller may conduct a briefing with drill participants. The intent of such a briefing would be to insure that drill participants understand their function and purpose in the drill. The control room briefing should be similar to a shift turnover briefing.
- 5.2.2 The lead controller may delegate controller responsibilities to other individuals. Controllers and evaluators can be used for this purpose. A controller shall be called such when that individuals sole responsibility is to assist in the conduct of a drill. An evaluator can function as a controller when assigned the task of providing information or instruction during a certain aspect of a drill.

- 5.2.3 The lead controller shall insure that plant safety is not compromised by a drill, and may stop a drill at any time if in his opinion plant safety may be affected.
- 5.2.4 The Lead Controller shall attempt to collect the signatures of as many participants as possible for training documentation. This responsibility can be delegated to other controllers, or evaluator.
- 5.2.5 The Lead Controller shall commence and end the Drill, upon approval from the JAFNPP Manager of Plant Operations.
- 5.2.6 The Lead Controller shall ensure that drill evaluators are stationed to properly observe and evaluate the drill.
- 5.2.7 The Lead Controller should distribute a fact sheet to the emergency response facilities describing plant conditions in effect approximately eight (8) hours prior to drill commencement.
- 5.3 During a drill, when (public address system) announcements are made, those announcements shall be prefaced or followed by the words "This is a Drill."
- 5.4 During a drill when contacting any offsite or non-JAF institution, the individual shall insure that the organization fully realizes that no emergency exists onsite and that it is a test of the JAFNPP Emergency Plan.
- 5.5 Drills shall be conducted using the guidance established by Attachment 1, Drill or Exercise Conduct Checklist.
- 5.6 The Emergency Planning Coordinator shall conduct an evaluator meeting prior to a drill. The meeting shall be to inform the evaluators of their specific tasks.

5.7 Radiological Emergency Medical Drills are limited in scope and participation by plant personnel. Therefore, only one lead controller is necessary in the Control Room, one evaluator/controller accompanying the victim and one controller at the destination hospital. Each evaluator/controller may be briefed individually. The Control Room controller must be an Entergy employee and the other controllers/evaluators may be medical consultant personnel. Drill documentation will be a combination of Entergy drill report and Control Room Evaluator Evaluation Form (Attachment 2) supplemented by the medical consultant's evaluation of performance.

#### 6.0 EXERCISE CONDUCT

An Exercise shall include all items specified for a drill with the following differences:

6.1 Exercises shall be conducted with the frequency established by SAP-1, MAINTAINING EMERGENCY PREPAREDNESS.

6.2 A Lead Controller shall be responsible for conducting the exercise in accordance with the written scenario. As a minimum, controllers shall be present in the Control Room, Technical Support Center, Operational Support Center, and the Emergency Operations Facility.

6.3 Every attempt should be made to include Federal, State and local input into the development of the exercise scenario.

6.3.1 The Exercise scenario shall be developed by a committee headed and organized by the Emergency Planning Coordinator at JAFNPP.

---

**7.0 EVALUATOR CONDUCT**

- 7.1 Evaluators shall be used to record all significant events and the time at which they occur during a drill or exercise using Attachment 2, Evaluator Evaluation Form. The drill or exercise scenario shall state the objectives of the drill or exercise which will determine the major areas for the evaluators to concentrate their observation. Actions to be evaluated include: the ability to control the emergency, timely and proper notification, availability and use of equipment and personnel for control and recovery, assessment of consequences of the emergency actions taken by emergency personnel, and the necessity for off-shift notifications.
- 7.2 Evaluators and controllers will be assigned as determined by the Emergency Planning Coordinator. The degree of evaluation shall be made based on the extent of the drill or scenario. As a general rule, however, evaluators shall be stationed to observe all expected major actions of the drill expected and as listed in objectives statement of the drill or exercise scenario. At least two evaluators must be available for drills and at least eight evaluators for an exercise.
- 7.3 In plant evaluators shall be badged following normal plant badging procedures, and are required to participate during accountability drills.
- 7.4 Evaluators and/or controllers shall be visibly identified as evaluators or controllers, and they should take no part in the action of the drill or exercise except to:
- 7.4.1 Indicate simulated conditions to the exercise or drill participants, (e.g., survey meter readings, contamination levels, etc.), but only after instructions by the lead controller or individual acting on behalf of lead controller.
  - 7.4.2 Observe poor communication techniques and procedures and note/correct such occurrences when they occur.

- 7.4.3 Prevent the communication of simulated emergency conditions as actual conditions outside of the exercise or drill area and to ensure that radio or telephone messages are preceded and ended by the statement "This is a Drill."
  - 7.4.4 Prevent actions which might create a hazard to personnel or equipment. In such cases, evaluators shall require personnel participating in the exercise or drill to indicate the action verbally.
- 7.5 Evaluators shall be briefed as to their duties prior to the commencement of the drill or exercise. Drill evaluators should be briefed within 24-hours of the commencement of a drill. Exercise evaluators should be briefed within 24 hours of the commencement of an exercise and written aids and procedures shall be provided for use by the evaluators. This 24-hour time frame may be adjusted to compensate for unannounced exercises.
- 7.6 Training shall be provided to evaluators by the JAFNPP Training Department and/or drill/exercise lead controllers. The training provided for evaluators will entail the briefing listed in Section 7.5. The briefing shall include a review of the drill or exercise scenario, the evaluator duties with regard to the assigned areas of evaluation, and the key points to be noted. The Emergency Planning Coordinator shall develop a list of evaluators to be trained. Exceptions to the qualified evaluators list may be made by the Emergency Planning Coordinator.
- 7.7 At the conclusion of the drill or exercise, the Emergency Planning Coordinator shall collect the completed Evaluation Forms (Attachment 2), compile a list of participants and conduct a critique with the evaluators and supervisors.
- 7.8 Evaluators shall familiarize themselves with the duties and action requirements of the personnel they are monitoring. The Drill Subject Report, Attachment 1 of SAP-1, Maintaining Emergency Preparedness, shall list evaluator's Name, Organization, and Area of Responsibility. Evaluators shall review applicable procedures. Evaluators shall use the following as guidelines.

## 7.8.1 Control Room and/or Simulator

The evaluator shall observe the action of personnel assigned to the Control Room and personnel who report to the Control Room for assignment. In addition, special attention will be given to the following:

- A. Notifications to onsite personnel and offsite agencies.
- B. Request for the call-in of off duty personnel.
- C. Operations handling of accident conditions.
- D. Instructions given to Search and Rescue, Repair and Corrective Action Teams and H.P. Techs by the Shift Manager (SM), as applicable.
- E. Does the SM handle the emergency by directing people or by trying to do the work himself?
- F. Are the time frames of actions by the SM reasonable enough?
- G. Actions of personnel in the Control Room.
- H. Communications with the EOF.
- I. Communications with the TSC.

## 7.8.2 Control Point

It is to be noted that all normal practices such as sign out and use of frisker and the portal monitor are to be accomplished unless the H.P. Technician gives other directions because of radiological conditions. The evaluator will pay special attention to the above along with the following.

- A. No one is wearing radiological protection clothing when leaving.
- B. All alarms from monitoring equipment are acknowledged.

## 7.8.3. Assembly Area

Observe the following for assembly area personnel:

- A. They seek out their assembly area, generally stay together as a group and remain orderly.
- B. Time of assembly and completed accountability.

## 7.8.4 Emergency Operation Facility

This is the command post for the Emergency and it should seem so to the evaluator. Look for the following things:

- A. The Emergency Director is in command of the EOF.
- B. Any extra personnel, spectators and those awaiting orders, are quietly standing out of the way.
- C. Has the Emergency Director contacted the TSC Manager?
- D. The Radiation Protection or Support Personnel are performing duties in an efficient manner and reporting results to the Emergency Director.
- E. Instrumentation/equipment in the EOF is placed as not to interfere with movement or cause a safety hazard.
- F. How problems with the radio and telephone are handled.
- G. Release rates, TEDE doses and CDE Thyroid doses to the offsite population are calculated quickly after the receipt of data from the Control Room or the Offsite Monitoring Team(s).
- H. The time frame of updates to offsite agencies and the reporting of exposure data and changes to site meteorological conditions, to those same agencies.

I. The Emergency Director assigns, where possible, the duty of making routine calls to someone else thereby leaving himself free to command the action.

J. How assessment teams make protective actions to offsite populations.

7.8.5 Off-Site Monitoring Teams

The evaluators shall observe the following items:

- A. Received KI dose, if necessary.
- B. Operational check performed on survey instruments, sample counter and air sampler before leaving the site.
- C. Equipment availability verified.
- D. Assignment of TLDs and dosimeters before leaving the site.
- E. Silver Zeolite Cartridges made available before leaving the site.
- F. Survey instrument operationally checked out and turned on prior to leaving to take field readings.
- G. Radio checked out by communicating to EOF or TSC before leaving.
- H. Beta and gamma field surveys performed on the way to sample point.
- I. Sampling and field surveys performed at sample location.
- J. Instrument calibration performed and samples counted.
- K. Work performed in a professional manner.

## 7.8.6 On-Site Monitoring Team

On-site monitoring teams may be assigned field survey work along the perimeter of the site. Check on the following items:

- A. Where do they receive their instructions?
- B. Dosimeter and TLD are being worn.
- C. What type of survey instruments used.
- D. Do they have radio/cellular phone available?
- E. Radio/phone check performed.
- F. Field readings taken along the route to the designated area.
- G. Work performed in a professional manner.

## 7.8.7 Security Force

- A. Are all security personnel accounted for?
- B. Does security direct people to the assembly area for accountability?
- C. Are access and egress roads controlled?

## 7.8.8 Technical Support Center

- A. The area maintained as a controlled area?
- B. Are communications initiated?
- C. Are H.P. Surveys performed and by whom?

## 7.8.9 Operations Support Center

- A. How is it staffed?
- B. What and how many teams are brought to the OSC?
- C. Are phones continuously manned?
- D. Are H.P. Surveys performed and by whom?

E. Who are survey results reported to? (CR and or TSC)

F. Are accurate protective measures taken if an entry into the controlled area is required?

7.8.10 Fire Brigade

A. Do they receive instructions and from whom?

B. Are protective measures taken if an entry into a controlled area is required?

C. Are Fire preplans consulted?

D. Is assistance requested from local support fire departments?

7.8.11 Immediately following the exercise/drill, evaluators/controllers should conduct a short critique for participants in their assigned area.

8.0 CRITIQUES AND CORRECTIVE ACTIONS

8.1 A post exercise/drill critique should be held for evaluators and plant supervision by the Emergency Planning Coordinator or designee. The critique should be held within 48 hours of the drill/exercise, at a time and place specified by the Emergency Planning Coordinator or designee. This meeting shall be held to help resolve questions raised by various evaluators and plant supervisors and to develop a list of corrective actions as necessary. The observations should include those actions noted by the evaluators which were not in accordance with approved procedures. In addition, the exercise/drill evaluators should identify any areas which require clarification, development or revision of procedures.

## 8.2 Emergency Plan Improvement Items/Lessons Learned Report

Following the critique, the Emergency Planning Coordinator or designee shall develop a list of Condition Reports (CRs), improvement items and lessons learned as a result of the drill or exercise. These items may be generated as a result of comments made at the critique, comments made by evaluators and controllers, or comments made by drill/exercise participants. The Emergency Planning Coordinator or designee shall review these comments and categorize significant comments into "CRs", "Lessons Learned" or "Improvement Items." The Emergency Planning Coordinator shall decide which of these items warrant entry into the JAFNPP Paperless Condition Reporting system (PCRS) and/or Action Commitment Tracking System (ACTS) and assign a completion date.

8.3 The Emergency Planning Coordinator or designee shall, after the preparation and review of the Emergency Plan Improvement Items/Lessons Learned listing, present the listing to responsible plant management staff for correction.

8.4 Any items identified during the critique that pertain to the scenario package used for the drill/exercise shall also be used to improve the package for future use. Scenario packages do not need to be updated until subsequent use.

## 9.0 DRILL AND EXERCISE PERFORMANCE INDICATOR (DEP) EVALUATION

9.1 This indicator monitors timely and accurate JAF performance in drills, exercises and actual events when presented with opportunities for classification of emergencies, notification of offsite authorities, and development of protective action recommendations (PARs).

This section provides guidance to determine success of applicable emergency planning NRC Performance Indicator (PI) data points.

9.2 The following will be included in the DEP indicator:

9.2.1 Evaluated exercises;

9.2.2 Actual emergency declarations;

- 9.2.3 And/or selected performance enhancing drills as determined by the EPC. The selection must be made in advance and documented.

### 9.3 Classification

- 9.3.1 A classification opportunity exists when plant parameters (observable and verifiable indications) reach an Emergency Action Level (EAL). This includes changes in classifications.
- 9.3.2 Timely is when the classification is declared in 15 minutes or less from the time the opportunity existed.
- 9.3.3 Accurate is when the correct classification is declared per IAP-2.

### 9.4 Protective Action Recommendations (PARs)

- 9.4.1 A PAR opportunity exists when criteria in applicable EP procedures require a PAR to be developed and/or made. This includes initial PARs and any PAR changes.
- 9.4.2 Timely is when the PAR is developed/made in 15 minutes or less from the time the opportunity existed.
- 9.4.3 Accurate is when the correct PAR is developed as required by procedure, subject to information available at the time of the PAR.

### 9.5 Notifications

- 9.5.1 A classification notification opportunity exists when an emergency classification is declared.
- 9.5.2 A PAR notification opportunity exists when a PAR is required.
- 9.5.3 Timely is when offsite notification are initiated (contact) in 15 minutes or less from event classification and/or PAR development.
- 9.5.4 Accurate is when the following information is completed on the New York State Part I form and approved, as applicable:

- A. Item #2 - Designation of exercise or not;
- B. Item #3 - Facility;
- C. Item #4 - Event classification, as declared (e.g. NUE, Alert, SAE, GE);
- D. Item #5 - Date and time of classification;
- E. Item #6 - Radioactive release status;
- F. Item #7 - PAR as determined (eg ERPAs, Sheltering) and effected population (ERPAs);
- G. Item #8 - Applicable EAL #;
- H. Item #11 and 12 - Wind speed and direction if PAR is made.

#### 10.0 ATTACHMENTS

1. DRILL OR EXERCISE CONDUCT CHECKLIST
2. EVALUATOR FORM

## DRILL OR EXERCISE CONDUCT CHECKLIST

- \_\_\_\_\_ 1. Prepare a drill or exercise scenario.
- \_\_\_\_\_ 2. Prepare a drill or exercise report.
- \_\_\_\_\_ 3. Evaluate the quantity of ERO trainees for potential impact on a successful drill or exercise.
- \_\_\_\_\_ 4. Present the drill or exercise to EPC for approval.
- \_\_\_\_\_ 5. Brief evaluators on the entire drill or exercise.
- \_\_\_\_\_ 6. Brief the individual evaluators on specified tasks.
- \_\_\_\_\_ 7. Issue evaluator Aids and Drill/Exercise Observation Sheet.
- \_\_\_\_\_ 8. Initiate the drill or exercise.
- \_\_\_\_\_ 9. Ensure the "flow" of activity throughout the drill or exercise.
- \_\_\_\_\_ 10. Terminate the drill or exercise when it's purpose is accomplished.
- \_\_\_\_\_ 11. Conduct a critique with participants or evaluators.
- \_\_\_\_\_ 12. Collect Drill/Exercise Observation Sheets.
- \_\_\_\_\_ 13. Complete a list of all deficiencies and recommendations.
- \_\_\_\_\_ 14. Tabulate PERFORMANCE INDICATOR (PI) data points for:
  - Number of successful emergency classifications
  - Number of timely notifications once classified/reclassified
  - Number of PARs (initial and PAR changes) This information can be obtained from observation sheets, Shift Manager logs, Emergency Director logs, NRC event notification forms, etc., depending on extent of drill or exercise and participating facilities.
- \_\_\_\_\_ 15. Complete action required on deficiencies.

# EVALUATOR EVALUATION FORM

DATE: \_\_\_\_\_ LOCATION: CONTROL ROOM

EVALUATOR: \_\_\_\_\_ CONTROLLER: \_\_\_\_\_

YES NO

1. Did the Shift Manager/ED demonstrate he is in charge? \_\_\_\_\_

2. Did the Control Room classify the emergency correctly in accordance with IAP-2? \_\_\_\_\_\*

3. Were notifications made to NYS and Oswego County within 15 minutes of event classification? \_\_\_\_\_\*

Were updates timely? \_\_\_\_\_

4. Were Protective Action Recommendations made to NYS and Oswego County? \_\_\_\_\_\*

5. Was timely notification made to the NRC (must be completed within one hour from event classification)? \_\_\_\_\_\*

6. Were communications prefaced with "This is a drill"? \_\_\_\_\_

7. Log the following times for event classification and notifications:

	Class. Time	RECS Time	Plant Staff Time	NRC Time
EAL	_____	_____	_____	_____
NUE	_____	_____	_____	_____*
ALERT	_____	_____	_____	_____*
SAE	_____	_____	_____	_____*
GE	_____	_____	_____	_____*

Did the SM/ED direct Security to initiate call outs?  
(Not necessary during normal working hours.) \_\_\_\_\_

8. Were timely briefings given to plant staff? \_\_\_\_\_

9. Was the ENS phone manned? \_\_\_\_\_

EVALUATOR EVALUATION FORM  
(Control Room Continued)

YES    NO

10. Did the Control Room experience any emergency plan equipment failures? \_\_\_\_\_

If yes what were the failures and how was the problem addressed:

\_\_\_\_\_

\_\_\_\_\_

11. Did Control Room personnel adhere to procedures (EOPs, AOPs, Tech. Specs., etc.)? \_\_\_\_\_

12. Was staffing level adequate? \_\_\_\_\_

13. Was Emergency Director turnover from the SM thorough? \_\_\_\_\_

Was plant staff advised of this transfer of responsibility? \_\_\_\_\_

14. Once initiated, was accountability conducted and maintained throughout the emergency? \_\_\_\_\_

15. Was shift turnover demonstrated? \_\_\_\_\_

16. Were logs properly maintained by key personnel? \_\_\_\_\_

17. Was the plant staff adequately informed regarding plant status? \_\_\_\_\_

18. Was data flow between facilities and teams accurate, timely and complete? \_\_\_\_\_

19. Was habitability performed in accordance with EAP-14.6? \_\_\_\_\_
