RE: Nabisco – Cambridge, Maryland

Mr. Hamms;

On November 1, 2002 I received a call from Mr. Mike Bauder of Nabisco – Le High, Pennsylvania Tel. 610-398-0311 Ext. 3152 advising me that (4) machines were transferred to his plant with radioactive sources still installed. The machines were transferred from Nabisco – Cambridge, Maryland.

On September 25, 2002 I contacted Nabisco – Cambridge, MD and spoke with a Ms. Cindy Wagner Tel. 616-209-6509. I advised Ms. Wagner that we had been notified that the plant was thinking of relocating (4) Filtec Units to Nabisco - Le High, PA. I advised Ms. Wagner that the Filtec units were still active and that they needed to be decommissioned prior to being transferred to Pennsylvania. Ms. Wagner advised me that she would contact Mr. Mike Deblin the Plant Manager and notify him that the units needed to be decommissioned prior to being shipped to the Pennsylvania plant.

Machine Model	Machine S/N	Source S/N	Isotope	Millicurie
FT-50-B	114062	2999	Am-241	100 mCi
FT-50-B	112866	4043	Am-241	100 mCi
FT-50-B	112974	4047	Am-241	100 mCi
FT-50B/PL	116391	1233	Am-241	100 mCi

I have contacted already contacted the State of Maryland and advised them of the transfer. At this point because Industrial Dynamics was not involved in the transfer we can not provide the Pennsylvania transfer documentation. Which I'm assuming will become an issue if they were to be audited.

Thank you for you time and understanding. Should you require additional information please feel free to contact me at (31) 257-2202 and/or contact me by email at alvarado@filtec.com

Sincerely,

Industrial Dynamics
