SUBJECT: Submittal of the Fort Calhoun Station (FCS) Inservice Inspection (ISI) Program Plan for the Fourth Ten-Year Interval (2003-2013)

Pursuant to the requirements of 10 CFR 50.55a and the Reference 2 ASME Code, Omaha Public Power District (OPPD) submits the FCS ISI Program Plan for the plant's fourth 120-month inspection interval commencing on September 26, 2003. The FCS ISI Program Plan incorporates the requirements of the ASME Section XI Code (1998 Edition, through 2000 Addenda) for NDE examinations and repair/replacement, and the O&M Manual (1998 Edition, through 2000 Addenda) for pump and valve testing.

OPPD requests that the NRC complete review of this plan prior to July 1, 2003 to allow OPPD sufficient preparation for implementation. OPPD intends to implement the FCS ISI Program Plan for the fourth 120-month interval on September 26, 2003.

No commitments are made to the NRC in this letter.

If you have any questions or require additional information, please contact Dr. R. L. Jaworski at (402) 533-6833.

Sincerely,

R. T. Ridenoure
Division Manager
Nuclear Operations/Site Coordinator
