Subject: NMP1 Amendment to Adopt TSTF-358

John:

We are reviewing your 10/7/02 application for amendment to adopt TSTF-358. Our reviewer, Bob Tjader, has some comments on your application.

Your application needs to include the STS version of STS SR 3.0.1 (NMP1 4.0.1) and associated Bases, to make the TS consistent with the STS upon which TSTF-358 is based. We are expecting custom plants to adopt STS SR 3.0.1 and associated Bases to ensure they are treating surveillance requirements in a manner consistent with that of the standard plants.
