Subject: Hatch BWR VIP ISP - Application Date: August 9, 2002

Ozzie Vidal,

In a phone call between SNC and NRC on November 8, 2002, NRC staff stated that, as a point of clarification, it would be preferable if certain changes were made in the FSAR language for the Hatch Units 1 and 2 BWR VIP ISP application dated August 9, 2002. The changes are provided below.

Please let me know if you have any questions.

Joseph Colaccino
NRC Hatch Project Manager
301-415-2753

Current Version

"The ISP replaces the existing material and surveillance monitoring programs with an integrated program using host reactor capsules containing the selected materials."

Proposed Version

"The overall ISP, as documented in References [A] through [E], replaces the existing material and surveillance monitoring programs with an integrated program using host reactor capsules containing the selected materials."
