Mr. Scott H. Pellet, Project Manager
Holtec International
555 Lincoln Drive West
Marlton, NJ 08053

SUBJECT: HOLTEC INTERNATIONAL REQUEST FOR WITHHOLDING INFORMATION
FROM PUBLIC DISCLOSURE FOR SAINT LUCIE UNITS 1 AND 2
(TAC NOS. MB6627 AND MB6628)

Dear Mr. Pellet:

By Florida Power & Light Company's letter dated October 23, 2002, and your affidavit dated September 4, 2002, you requested that Holtec Report HI-2022882, "Spent Fuel Storage Expansion at St. Lucie Units 1 and 2 for Florida Power & Light" be withheld from public disclosure pursuant to Title 10 of the *Code of Federal Regulations* (10 CFR) Section 2.790.

A nonproprietary copy of this document has been placed in the Nuclear Regulatory Commission's (NRC's) Public Document Room and added to the Agencywide Documents Access and Management System Public Electronic Reading Room.

The affidavit stated that the submitted information should be considered exempt from mandatory public disclosure for the following reasons:

- a. The information includes test data or analytical techniques concerning a process, methodology, or component, the application of which results in a competitive advantage for Holtec International.
- b. The information is vital to a competitive advantage held by Holtec International, would be helpful to competitors to Holtec International, and would likely cause substantial harm to the competitive position of Holtec International.

We have reviewed your application and the material in accordance with the requirements of 10 CFR 2.790 and, on the basis of your statements, have determined that the submitted information sought to be withheld contains proprietary commercial information and should be withheld from public disclosure.

Therefore, the document listed above and identified as proprietary, will be withheld from public disclosure pursuant to 10 CFR 2.790(b)(5) and Section 103(b) of the Atomic Energy Act of 1954, as amended.

Withholding from public inspection shall not affect the right, if any, of persons properly and directly concerned to inspect the documents. If the need arises, we may send copies of this information to our consultants working in this area. We will, of course, ensure that the consultants have signed the appropriate agreements for handling proprietary information.

If the basis for withholding this information from public inspection should change in the future such that the information could then be made available for public inspection, you should promptly notify the NRC. You also should understand that the NRC may have cause to review this determination in the future, for example, if the scope of a Freedom of Information Act request includes your information. In all review situations, if the NRC makes a determination adverse to the above, you will be notified in advance of any public disclosure.

If you have any questions regarding this matter, you may contact Eva Brown at 301-415-2315.

Sincerely,

/RA Eva Brown For Brendan Moroney/

Brendan T. Moroney, Project Manager, Section 2
Project Directorate II
Division of Licensing Project Management
Office of Nuclear Reactor Regulation

Docket Nos. 50-335 and 50-389
