Mr. Cass R. Chappell
Section Leader, Cask Certification and
Transport Systems Branch
Division of Industrial and
Medical Nuclear Safety, NMSS
U.S. Nuclear Regulatory Commission
Washington, DC 20555

Subject: Request for Renewal of Certificate of Compliance for TRIGA-I (CoC No. USA/9034/AF) and TRIGA-2 (CoC No. USA/9037/AF) Shipping Casks with Minor Revisions.

Dear Mr. Chappell:

General Atomics (GA) holds valid Certificates of Compliance (CoC) for its Model No. TRIGA-1 (CoC No. USA19034/AF) and Model No. TRIGA-2 (CoC No. USA/9037/AF) fuel element shipping containers. The current certificates expired on May 31, 1995. However, GA understands that the CoC's are considered to be in timely renewal. Enclosed, per your request, is a consolidated application package for renewal of the TRIGA -1 and TRIGA-2 CoC's.

Please note that GA has impending requirements to ship TRIGA fuel to both domestic and international destinations. If you have any questions regarding this matter, please contact Mr. Brian Laney at (619) 455-4369.

Very truly yours,

Keith E. Asmussen
