William D. Travers
Executive Director for Operations
US Nuclear Regulatory Commission
016E15 Washington, DC 20555

Dear Mr. Travers,

My husband, Mushaf Raza Mirza, was diagnosed with cancer in December 1993. He died on April 29, 1995. My husband joined Stone & Webster Engineering Corporation, where he was assigned as Principal Radwaste Engineer in the Pilgrim Nuclear Power Station owned by Boston Edison, which is now Nstar. I have contacted the Human Resources at Nstar and Stone & Webster, and requested his nuclear exposure records. They have told me that they no longer have any records related to his employment, including the nuclear exposure records. I find it unlikely given the fact that this disease occurs decades later that there is no requirement to maintain these records indefinitely. I ask that enforcement action be taken against Stone & Webster, Nstar, Boston Edison, and Pilgrim Nuclear Power Station for their failure to maintain these records. Consider this request for action pursuant to Section 2.206 of the NRC Commission's Regulation.

Regards,

Nilofer Mirza
Executrix for the Estate of Mushaf R. Mirza
