SUBJECT: RESPONSE TO INPUT OF LOUISIANA ENERGY SERVICES GAS
CENTRIFUGE FACILITY POLICY ISSUES

Dear Mr. Tschaeche:

Thank you for your letter to the U.S. Nuclear Regulatory Commission (NRC) dated November 16, 2002. In your letter, you provided input in response to our request for public comments on the Louisiana Energy Services policy issues. We are considering your comments in addition to the others we received in response to our request.

You also requested to be placed on the service list for correspondence and other material related to Docket Nos. 70-3103 and 70-7003, and generic materials related to uranium enrichment plants. We are asking that individual members of the public use the NRC's Agency-wide Document Access and Management System (ADAMS) for access to gas centrifuge project documents. Information on how to use ADAMS is available on the NRC web site at (www.nrc.gov). We also have a gas centrifuge web site at (www.nrc.gov/materials/fuel-cycle-fac/gas-centrifuge.html).

Sincerely,

/RA/

Timothy C. Johnson
Special Projects Section
