Re: FOI Request

This is a formal request under the US Freedom of Information Act.

I request that a copy of the following documents [or documents containing the following information] be provided to me:

\* A complete listing of all missing, unaccounted for, stolen or lost radioactive material as reported to the US NRC for a period of 10 years. We request this list be provided to us in an electronic formatted database. I request the database be submitted to us in its entirety, on CD and in the format ASCII text comma or tab delimited. I further request that the data be accompanied by a key that includes a field and record layout, as well as any additional info that will help us to understand the data, including any codes.

\* A complete history of all regulatory penalties, fines, actions and permit revocations by the US NRC for mishandling of radioactive material.

We believe that we are entitled to the above documents as a result of the inclusion in the public record.

In order to help to determine my status to assess fees, you should know that I am a journalist employed by KNXV TV submitting this FOI request as part of the newsgathering process, and not for commercial use.

I am willing to pay certain fees for this request, but would like to be informed of the estimated cost of the processing of this request before I am billed.

Thank you for your timely consideration of this request.  
 Sincerely,

Adam Symson
