SUBJECT: FEBRUARY 5, 2003 GENERIC FUNDAMENTALS EXAMINATION SECTION

The NRC plans to administer the generic fundamentals examination (GFE) section of the written operator licensing examination on February 5, 2003.

To register personnel to take the GFE, an authorized representative of your facility must submit a letter to Mr. Luis A. Reyes, Regional Administrator, Region II, a copy to me at the Region II address, and a copy addressed as follows: Mr. Theodore R. Quay, Chief, Equipment and Human Performance Branch, Division of Inspection Program Management, Office of Nuclear Reactor Regulation, Mail Stop OWFN 6F-2, U. S. Nuclear Regulatory Commission, Washington, DC 20555-0001.

Your letter should identify the individuals who will take the examination, and it should certify that they are enrolled in a facility licensee-sponsored program leading to an NRC operator or senior operator license, and that they will have completed their fundamentals training by the date of the examination. The letter should also identify the personnel who will have access to the examinations before they are administered (e.g., proctors) and the address to which the examinations are to be sent. To allow the NRC to assign docket numbers, the letter should be received by both the NRC regional administrator and the Chief, Equipment and Human Performance Branch, by January 5, 2003. A sample registration letter is enclosed.

In accordance with 10 CFR 2.790 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).

If any other assistance is needed, please contact me at (404) 562-4638.

Sincerely,

/ RA /

Operator Licensing and Human
Performance Branch
Division of Reactor Safety
