RE: Correction to November 26, 2002, Sierra Club Letter Regarding Utah Division of
Radiation Control Agreement State Status

Dear Mr. Lohaus:

My letter of November 26, 2002, was not completely accurate with respect the participants in the Utah Department of Environmental Quality stakeholder task force. According to information on the Utah Division of Radiation Control (UDRC) web site (rather than the fact sheet included in the October 23, 2002, letter from the UDRC to your office), a representative from Grand County participated in the task force. Additionally, representatives from Garfield County and the City of Blanding were included in the task force, but they did not attend any of the task force meetings or, it seems, participate in any other manner.

This information, however, does not alter the basic conclusions stated in the November 26 letter.

Sincerely,

John Weisheit, Chair
Glen Canyon Group/Sierra Club
