**Submittal of the Integrated Security Force
Training and Qualification Plan, Revision 0**

Dear Sir:

Entergy Nuclear Operations, Inc. is submitting an Integrated Security Force Training and Qualification Plan, Revision 0 (Enclosure 1) for the Indian Point Energy Center (IPEC) that was approved by the Onsite Safety Review Committee (OSRC) on October 29, 2002. The changes were evaluated by Entergy in accordance with 10 CFR 50.54(p)(2) and determined not to decrease the safeguard effectiveness of the plans previously used for Indian Point Units 1, 2 and 3. The integrated plan details how security officers are selected, trained, equipped, and qualified to perform security duties at IPEC. The reason for this change is to combine the two separate plans used by the previous owners, Consolidated Edison and the New York Power Authority, into an integrated plan for IPEC. Security officers will now be trained to work at any of the units at IPEC.

Please confirm receipt of this plan by signing and returning the receipt acknowledgment form provided in Enclosure II. Entergy is making no new commitments in this submittal.

This submittal does not contain safeguards information as defined by 10 CFR 73.2. Entergy requests that Enclosure I to this letter be exempt from public disclosure in accordance with 10 CFR 9.17(a)(4). Entergy has determined that Enclosure I contains physical protection information not otherwise designated as Safeguards Information which is deemed by 10CFR 2.790(d) as commercial or financial information within the meaning of 10CFR 9.17(a)(4).

Should you or your staff have any questions regarding this submittal, please contact Mr. David Thompson, IPEC Security Manager at (914) 736-8922.

Sincerely,

John T. Herron
Senior Vice President
