Storage and Transport Systems Branch
Office of Nuclear Material Safety & Safeguards
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555-0001

Reference: Certificate of Compliance No. 5926, Docket 71-5926

Dear Mr. Chappell:

GE hereby requests that Certificate of Compliance No. 5926 for the Model 100 shipping container be renewed. The current versions of the operating procedures, acceptance tests, and maintenance programs were submitted with the previous application for renewal. They were reviewed, and no revisions have been made since the previous submission. No quality assurance procedures for the manufacture or receipt of new containers are included as GE does not currently plan to obtain new containers.

If additional information is required for this renewal, please let me know.

Sincerely,

B. M. Murray
Senior Licensing Engineer
