Subject: Submittal of Revised Pages for the Supplemental ISG-11, Revision 2, Information for the Proposed Amendment of the Certificate of Compliance (CoC) for the NAC-UMS[®] Universal Storage System to Incorporate Enhanced Design Features (E-UMS)

Docket No. 72-1015

- References:
1. Certificate of Compliance (CoC) No. 1015, Amendment 2, for the NAC International UMS[®] Universal Storage System, U. S. Nuclear Regulatory Commission, December 31, 2001
 2. Final Safety Analysis Report (FSAR) for the UMS[®] Universal Storage System, Amendment 2, NAC International, January 2002
 3. Request for an Amendment of the Certificate of Compliance (CoC) for the NAC-UMS[®] Universal Storage System to Incorporate Enhanced Design Features, NAC International, January 15, 2002
 4. Submittal of Supplemental ISG-11, Revision 2, Information to the NAC Responses to the NRC Request for Additional Information for the Proposed Amendment of the Certificate of Compliance (CoC) for the NAC-UMS[®] Universal Storage System to Incorporate Enhanced Design Features, NAC International, November 27, 2002

NAC International (NAC) herewith submits eight copies of revised pages for the supplemental ISG-11, Revision 2, information previously submitted in Reference 4 for the requested amendment of the Certificate of Compliance (CoC) for the NAC-UMS[®] Universal Storage System to incorporate enhanced design features (referred to as E-UMS).

This submittal provides the proposed safety analysis report (SAR) changed pages, which are designated as Revision UMSS-02G. The previous revision of Page 12A3-4 was inadvertently included in the Reference 4 submittal. The revised Page 12A3-4 and List of Effective Pages are provided in this submittal. Note: The enclosed SAR changed pages are to be inserted as replacement pages into the existing E-UMS SAR binders. After replacement of the changed pages provided in this submittal, the revised List of Effective Pages should be used to ensure that the correct pages are included in the SAR binders.

The Revision UMSS-02G changed pages have been prepared in accordance with the following conventions:

- The changed pages for this submittal are designated as Revision UMSS-02G to provide a unique identification of the pages and changes.
- Revision bars are used in the page margin to indicate changes. All previous revision bars on the Revision UMSS-02G pages have been deleted, so that only the revisions associated with this revision are marked on those pages. Revision bars are not used to indicate text flow.
- All of the pages in the List of Effective Pages are designated Revision UMSS-02G, but no revision bars are used on those pages.
