Nuclear Safety, NMSS
United States Nuclear Regulatory
Commission
Washington D.C., 20555

Dear Mr. Haughney:

REFERENCE: Docket 71-6206, USA/6206/AF

On November 23, 1994, B&W Fuel Company (BWFC) submitted an application to amend the above referenced Certificate of Compliance (C of C) to authorize the shipment of two new fuel designs. The request also included an acceptance and maintenance program to remove condition nine of the C of C which prohibits fabrication of additional packagings. Bernie White of your staff informed us that this issue could delay the rest of the application. Because of scheduling constraints, BWFC has decided to withdraw the request to remove condition nine and will pursue the matter at a more convenient date. If you should have any questions, please feel free to call me at (804) 832-5202. Thank you.

Sincerely,

B&W FUEL COMPANY
Commercial Nuclear Fuel Plant
