

10/16/02

To Ms. Janice Kirby,

Ms. Kirby as per our discussion this morning regarding License #45-19889-01 renewal.

Conditions #11 and #12 name Mr. Wayne Pierce as Alternate RSO. He no longer works for BASF Corp. As per a prior discussion with Mr. Wade Loo of the NRC regarding an Amendment to our license I was informed that it would be adequate to resolve Mr. Pierce's removal from License #45-19889-01 with the renewal Application dated May 15, 2002.

My discussion with Mr. Loo influenced my response to box #7 of said application to read as follows.

**Item 7      Individuals Responsible**

This equipment will be used by trained individuals under the direction of:

**(Change from Amendment No. 12)**

**The Radiation Safety Officer:** This individual will have completed the 4-day Ohmart Radiation Safety Course taught in Cincinnati.

**The Assistant Radiation Safety Officer:** This individual will have completed the 4-day Ohmart Radiation Safety Course taught in Cincinnati.

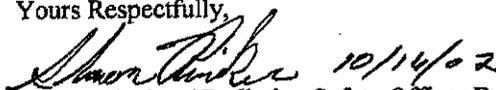

As per discussion with Ms. Orysia Bailey the Individual Responsible would have to be named on the license.

To insure compliance I agreed to remain named as the Radiation Safety Officer it was how ever overlooked on my part to ensure that Mr. Pierce was not named as Alternate RSO.

If it is necessary to name the ARSO then please place Mr. Jim Wheat as ARSO, he has received the training required. (copy of Training Certificate included)

Thank You for your help with this issue.

Yours Respectfully,

 10/14/02  
Shawn Rineker / Radiation Safety Officer BASF Corp Portsmouth plant

200391

# OHMART VEGA

*Jim Wheat*

*BASF Portsmouth, Virginia*

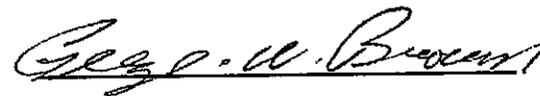

Has successfully completed the  
**Ohmart Radiation Safety Course**

October 18 - October 22, 1999
