Mr. David Collins
Division of Nuclear Material Safety
U.S. Nuclear Regulatory Commission, Region II
Sam Nunn Atlanta Federal Center
61 Forsyth Street, S.W., Suite 23T85
Atlanta, Ga. 30303-8931

RE: Nuclear Gauge Usage for Year 2002 (Florida License No. 2708-1)

By correspondence, with use of form 241, it is indicated that our gauge use for 2002 was 135 days. The actual days of use were considerably less.

The project was separated into several phases which dictated that we be on and off the project continuously for the duration. We gained authority, by you, to use the density gauge as if it were continuous days of construction.

Attached is the Gauge Utilization Log which indicates the correct number of days of use (45).

If you should need any additional information please contact me at 386-752-4921.

Sincerely,

Carlton L. Dempsey
Radiation Safety Officer
