Global X-Ray and Testing Corporation
ATTN: William M. Johnston
Corp. Radiation Safety Officer
P.O. Box 1536
Morgan City, LA 70381-1536

SUBJECT: INITIAL NRC FORM 241 FOR CALENDAR YEAR 2003

Mr. Johnston:

This acknowledges receipt of your initial NRC Form 241 dated December 6, 2002, and the \$1400 application fee, submitted to the NRC Region IV office to report proposed activities in NRC jurisdiction under the authority of the general license pursuant to 10 CFR 150.20.

Your Agreement State license is recognized as valid for the proposed use of licensed material in the Gulf of Mexico, as indicated on your NRC Form 241, and attachments, if any. Please be aware that working under reciprocity in NRC jurisdiction requires you to comply with NRC regulations, as described in 10 CFR 150.20. Notwithstanding your NRC Form 241 submittal, you are required to use only approved source/device combinations as listed in your Agreement State license and used in accordance with the conditions specified in the registration certificate. Your Agreement State license expires on March 31, 2003. You must provide this office, a copy of either: (1) your amended Agreement State license, or (2) copy of a deemed timely letter, in order to continue to work in Federal jurisdiction after March 31, 2003.

The exemption from 10 CFR 34.20(a)(1) which allows you, as NRC's general licensee, to use any pipeliner industrial radiography exposure device identified on your Agreement State license to conduct offshore radiography activities on lay barges in the Gulf of Mexico, in areas under Federal jurisdiction, will expire on January 31, 2003. Currently, the regional office has requested Headquarter's to determine the status of this exemption, as we recognize that licensees have cited concerns over the safety of using alternate devices not intended for the inspection of pipeline construction, and the significant economic impact on your industry, if the devices were prohibited from use. We will keep you informed as to the status of this exemption; however, under the existing exemption, the NRC will no longer approve the use of gamma pipeliner devices after January 31, 2003.

The calendar year 2003 RTS Reference numbers for your locations of work in the Gulf of Mexico, as provided to this office under NRC Form 241 clarifications, are as follows. Other RTS Reference numbers will be assigned, as NRC Form 241 clarifications are received in this office. Please refer to the appropriate RTS Reference number in any future communications.

RTS Reference Number	Proposed Location of Work
68	Apache Oil
69	BP
70	Chevron/Texaco
71	Devon
72	Dynamic Industries
73	Walter Oil and Gas
74	Williams Field Services

You must submit an NRC Form 241 clarification report when you propose to add locations of work, add or delete dates of work, change work site contacts, use different radioactive materials, or elect to perform additional work activities within NRC jurisdiction, and subsequently provide those changes to this office. Please note, all notifications or clarifications of work activities or changes to the information submitted on the initial NRC Form 241 must include as a minimum, the following information: licensee name, agreement state license number, location of work, dates of work, and the signature of the RSO or designee.

Information submitted on NRC Form 241 must be specific regarding the location and dates of use. Since your reciprocity request is for various locations over an extended period of time, you are required to notify this office three days prior to each of the proposed generally licensed activities. However, given the nature of your licensed activities, the time requirement specified in 10 CFR 150.20(b)(1) for filing an NRC Form 241 clarification report and any subsequent notifications has been waived, provided that you:

- A. Inform this office by telephone or facsimile of work activities or changes to the information submitted on the initial NRC Form 241, and
- B. Receive oral or written authorization for the activities from this office, and
- C. Submit written confirmation and the check for the fee payment, if applicable, within 3 days after the notification.

Enclosed is an NRC signature copy of your NRC Form 241. We appreciate your cooperation. If you have questions concerning this letter or other aspects of working in NRC jurisdiction under reciprocity, please contact me at 817-276-6552.

Please use one of the following FAX numbers for submitting NRC Form 241 clarifications.

817-860-8263

817-860-8188

In accordance with 10 CFR 2.790 of the NRC's "Rules of Practice," a copy of this letter, its enclosure, and your response, if you provide one, will be made available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).

Sincerely,

/RA/

Rachel S. Browder, Health Physicist
