Re: Request to inactivate registration certificate:

Agilent's certificate NR-348-D-106-B has been determined to be obsolete. The certificate covers Electron Capture Detector (ECD) models that are no longer being manufactured, sold, or supported by Agilent Technologies, Inc.

Please contact me at 302-633-8205, or the Radiation Safety Officer, David Bennett, at 302-633-8262 if you have any questions.

Very truly yours,

Gene Niland
