Subject: VECTRA Organizational Changes: Licensing Personnel

Dear Dr. Travers:

The purpose of this letter is to inform you and your staff of recent VECTRA organizational changes with respect to licensing personnel. On November 2, 1995, Mr. Jack Rollins was assigned the position of Licensing Manager for VECTRA Fuel Services along with the responsibility for both 10CFR Part 71 and 10CFR Part 72 licensing functions. This combined licensing role reflects the interdependence of the storage and transportation aspects of dry spent fuel packaging, is consistent with recent changes within your Office and is intended to facilitate communications between VECTRA and the NRC.

Accordingly, licensing communications between the NRC and VECTRA that have previously been directed through either Mr. Charles Temus (10CFR Part 71/Transportation Licensing) or Mr. James Axline (10CFR Part 72/Storage Licensing) should now come through Mr. Rollins. He resides in VECTRA's San Jose office and can be reached at 408-281-6020. Messrs. Temus and Axline will continue to play key roles within the organization and will continue to interact with your staff in support of Mr. Rollins and various licensing efforts as appropriate.

Should you or any of your staff have any questions concerning the above changes, please do not hesitate to contact Mr. Rollins, or me at 408-281-6007.

Sincerely,

110095
