

November 30, 2001

Ms. Helen Leiser
Director Nuclear Industries
Department of Trade and Industry
Room 119
1 Victoria Street
London SW1H 0ET

Dear Helen:

I would like to take this opportunity to thank you for taking the time to meet with me and John Flack on November 14, 2001, during our visit to the United Kingdom. The discussions were very informative. The U.S. Nuclear Regulatory Commission and Nuclear Installations Inspectorate (NII) have many common interests, and from this perspective it is very important to maintain a close relationship.

I am looking forward to the UK's Energy Policy Report that we had discussed. It is my understanding that the report will provide a vision of the role of nuclear energy in meeting UK's long term energy needs. We are also very much interested in Health and Safety Executive's audit of NII's nuclear skills and the skills that will be needed to support long term nuclear regulatory activities. We hope to learn from the insights in the report. Also, thanks goes to Mr. Coverdale for the copy I received of the documents describing the objective of the Nuclear Skills Study, the Nuclear Skills Group, and potential future activities.

I noted your strong interest in utilizing risk information in regulatory decision making activities. If there is any information you might find helpful that we can provide, I would be happy to do so.

Once again, thank you for a delightful visit. Please extend my appreciation to your colleagues, especially Bill Ascroft-Hutton, who made our visit to the UK technically informative and enjoyable.

Sincerely,

/RA/
Ashok C. Thadani, Director
Office of Nuclear Regulatory Research
